JOSEPH HARRIS CO., INC. MORETON FARM
ROCHESTER, N. Y.

DELIVERY OF SEEDS

All vegetable and flower seeds **in this price list** except **Peas, Beans, and Sweet Corn** will be sent prepaid by parcel post, express or freight **at our option.**

Peas, Beans, and Sweet Corn will not be sent prepaid unless they are included in any one order **to the value of \$20.00 or more.**

The above offer to pay transportation does not apply to Field and Grass seed, Potatoes, Onion Sets, Fertilizers, etc. Articles other than seeds listed in this catalogue are sent at **purchaser's expense** except where they are quoted "**Transportation paid.**"

Seeds ordered sent by express will be so sent at the purchaser's expense.

About Ordering, Shipping, Etc.

Orders may be sent at any time and goods will be shipped at the time specified on the order.

Freight shipments are now handled by the railroads much more promptly than formerly and we advise having all heavy shipments (100 lbs. or more) sent in that way.

When ordering seeds shipped by freight or express please **be sure to give the name of your nearest freight railroad station or express office if it is different from your post office address.**

25% of the value of the order must accompany all orders for goods shipped C. O. D. Plants will not be sent C. O. D.

Terms and Discounts

Our regular terms are **cash with order.** When cash is sent with order we allow a discount of 5% on vegetable and flower seeds and plants, small fruits and accessories.

Note: The above discount does not apply to Semesan Products and "Black Leaf 40" which are net under the Fair Trade Law.

Field and Grass Seeds are strictly net cash with order at prices quoted.

To **Market Gardeners** of established credit and those who furnish us with satisfactory references we allow the following **time payments** *except on field and grass seeds, which are strictly cash with order.*

Bills for seeds, plants, etc., shipped after December 1st are due and payable **net** August 1st.

Bills for goods shipped after August 1 are due **net** December 1st.

To **Florists** of established credit and those who furnish us with satisfactory references we allow the following **time payments** *except on field and grass seed.*

Bills for seeds, plants, etc. shipped after December 1st are due and payable **net** June 1st.

Bills for goods shipped after June 1st, are due net December 1st.

Conditions of Sale

No **seeds** are sold by us that we do not **know** are of good vitality and will grow under normal conditions. They are all tested and the per cent that germinates is marked on the package or label.

We assume responsibility of the seeds, plants and bulbs reaching the purchaser in good condition. However, in common with all responsible seedsmen, we give no warranty, express or implied as to description, quality, productiveness or any other matter of any seeds, plants or bulbs we send out, and we will not be in any way responsible for the crop. We will not accept or fill orders under any other conditions.

Moreton Farm, Rochester, N. Y., Dec. 1, 1941

JOSEPH HARRIS COMPANY, INC.

Our General Catalogue

Our general catalogue is issued in January. It contains more complete descriptions of the varieties listed here. Also a full line of garden accessories, fertilizers, insecticides, etc.

Your copy will be mailed to you as soon as issued. If you do not receive it, let us know. We will gladly send copies to your friends on request.

HARRIS SEEDS

1942 Market Gardeners and Florists Price List

FIELD OF HARRIS' BLUE HUBBARD SQUASH

Grown for seed on our farm. Our famous stock has been largely responsible for making Blue Hubbard one of the most popular and important varieties in the East. See also page 28.

You Can Depend on Harris' Seeds

One of our customers writes: "We have a roadside stand and sell all our crops in front of our home. As you can see from the size of this order, we have a wonderful business and depend fully on your seeds. We haven't been able to find anything that even comes up to it." James Wood, Marcellus, N. Y. Feb. 3, 1941.

We take pleasure in sending you our Market Gardeners' and Florists' Price List for 1942 and are sure that it will be well worth while for you to read it carefully.

Our experience over many years leads us to believe that again this year, there will be a great demand for vegetables and prices will be good. Growers with good yields of first class produce will without doubt make money.

It is therefore, more important than ever that you use good seed. Due to the war which has cut off all imports of seed and also the adverse weather conditions in the most of the seed growing sections of this country, *there is a real shortage* of many kinds of seed. Much seed of inferior quality and germination will no doubt be offered to growers. We feel our obligation to our customers very keenly and *we will not sell inferior seed under any circumstances*. We believe that in this catalogue we are offering you the best seed which can be obtained. Many of the varieties are developed and grown on our own farms.

We are proud that market gardeners have learned to depend on us for their crops, and know that they get only the best when they buy Harris Seeds.

PROMPT SERVICE

It is so easy to order by mail and you can be assured that when you send us your order you do not have to wait for your seeds. During the shipping season, orders are shipped out promptly on arrival. Fast mail, express and freight service will get them to you quickly and in good order.

EVERY LOT OF SEED IS TESTED!

The germination is plainly marked on every package of seed we sell. Use this guide when sowing to get good stands.

PLEASE NOTE: *All prices here quoted are subject to change without notice and to our stocks being unsold.* For prices of seed in quantities less than listed here, please refer to our general catalogue.

We will be pleased to quote special prices to anyone buying larger quantities of any one variety than we list here. Please write.

*Spargel (Ger.)***ASPARAGUS***Sparagio (It.)***Mary Washington—Large, early and "rust resistant"**

The best of the "rust resistant" varieties. Originated by the United States Department of Agriculture at Washington. Our seed is the true strain and will produce the finest large stalks.
Oz. 15c; $\frac{1}{4}$ lb. 40c; 1 lb. \$1.25; 10 lbs. \$11.50.

*For roots see page 35.**Artichoke (Ger.)***ARTICHOKE***Carciofo (It.)*

LARGE GREEN GLOBE. The Standard Variety. Produces the flower buds which are used for food the second year after sowing the seed. The plants are not hardy and require protection in winter north of Virginia. Oz. 50c; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00.

*Salat-Ruebe (Ger.)***BEETS***Barbabetole (It.)*

$\frac{1}{4}$ lb. of seed will sow about 250 ft. of row.
Sow 10 lbs. of seed to the acre for rows 14 in. apart; 6 to 8 lbs. per acre for rows 18 in. apart.

Harris' Special**Crosby's Egyptian****Finest Beet For Early Bunching**

Harris' Crosby is without question the best early bunching beet obtainable. It is very early, makes a good top and handsome dark red beets with small tap roots. Their smoothness and uniform shape makes them invariably the finest looking beets in the market, and they naturally command top prices.

Harris' Special**Detroit Dark Red**

This is the best beet for late summer and fall trade. No better strain can be obtained. It is not only of excellent globe shape but has a superb deep red color that is without equal. This is a large topped strain, and therefore particularly fine for late summer and fall bunching. There is no beet quite so satisfactory in all respects as Harris' Special Detroit.

We know canners who insist on Detroit beets grown from our seed in preference to all others. See prices below. *Crop short.*

**Harris' Special Crosby's Egyptian Beets**

	$\frac{1}{4}$ lb.	1 lb.	10 lb.	100 lb.
CROSBY'S EGYPTIAN. Harris' Special Strain. See above.....	\$.60	\$1.85	\$17.50
CROSBY'S EGYPTIAN. Bright Red Strain.55	1.75	16.50
Color lighter red than Harris' Strain. Popular in some markets.				
DETROIT DARK RED. Harris' Special Strain. See above.....	.70	2.15	20.00
Early Blood Turnip.40	1.25	12.00	\$110.00
A good old variety. Large, somewhat flattened beets. An early cropper.				
EARLY WONDER. A Superior Strain for Bunching60	1.85	17.50
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is exceptionally fine.				
LONG SEASON. Called "Winter Keeper" and "New Century" ..	.70	2.25	21.00	200.00
A very late variety of extra fine quality. Description in Retail Catalogue.				
LONG SMOOTH BLOOD RED. (True Strain)50	1.50	14.00
8 to 10 inches long and very dark red. Grows half out of the ground.				
Beets for Greens. (Green Top)30	1.00	9.50	90.00
A distinct, rapid growing variety, selected to produce fine tops quickly.				

BROCCOLI**True Italian Green Sprouting
(Calabrese Strain)**

1 oz. of seed will produce about 2000 plants.

This is the best stock which can be obtained and is the true "Calabrese" strain. You can depend on this stock to produce compact center heads and an abundance of large side shoots.

Note: Where small center heads are wanted for bunching, it has been found practical to sow the seed in $2\frac{1}{2}$ foot rows and thin the plants to 3 to 6 inches. This will produce an abundance of small heads and side shoots.

Oz. 60c; $\frac{1}{4}$ lb. \$1.75; lb. \$6.00.

**Italian Green Sprouting Broccoli**

Bohnen (Ger.)

BEANS

Fagioli (It.)

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

At the prices here quoted, beans are not prepaid. Purchaser pays transportation on beans except as follows: *If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

Our beans are grown from clean, true, high yielding stocks which are carefully rogued in the fields and hand picked. Our first consideration is to supply our customers with the best beans obtainable. We have made our prices as low as possible for our high quality stock.

Streamliner Beans

Note the heavy yield of long straight beans.

Streamliner (New)

Long Straight Pods

This is an excellent new flat-podded bean for market and shipping. The straight pods are slender, bright green and exceptionally long, measuring seven or more inches in length. The vines are vigorous and healthy bearing great clusters of beans, making it one of the best yielders.

Streamliner is already in great demand by growers, especially those who sell on markets where fine appearance is of most importance. The beans are stringless and white seeded. Try some this year. See prices below.

Plentiful (New)

Large Attractive Pods—Heavy Yield

This new variety has met with great favor since its introduction a few years ago. In some large markets, because of the attractive appearance and fine quality it has brought a premium over other varieties. The pods resemble Bountiful but are longer and a few days later. They are stringless and of fine quality. Black Seeded.

The vines are upright, robust and produce large crops. It is one of the heaviest yielders. Be sure to grow some Plentiful this year. See prices below.

Tendergreen

The Leading Round Pod Green Bean

If you want an early round podded green bean, you will do well to grow Harris' Tendergreen. It is the best bean of this class, and is one of the largest selling kinds.

The pods are round, handsome and straight; entirely stringless and with tender rich meat. They are produced in great abundance on sturdy upright vines. See prices below.

DWARF GREEN-PODDED BEANS

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

NOT PREPAID* (See above)

	1 lb.	7 1/2 lb.	15 lb.	100 lb.	500 lb.
BOUNTIFUL. Selected Stock	\$.30	\$1.60	\$2.85	\$16.00	\$75.00
<i>The handsome early pods are long, straight, light green and entirely stringless. There is no better stock of this well known variety.</i>					
Black Valentine30	1.60	2.85	16.00	75.00
<i>A profitable market bean, produces large crops of long, round, straight, light green pods. Not stringless except when very young.</i>					
Giant Stringless Green Pod30	1.50	2.70	15.00	70.00
<i>Slightly curved, round pods, stringless of excellent quality.</i>					
PLENTIFUL. (New) See above.30	1.75	3.15	18.00	85.00
STREAMLINER. (NEW) See above.30	1.90	3.45	20.00	...
STRINGLESS BLACK VALENTINE30	1.60	2.85	16.00	75.00
<i>One of the most prolific and earliest green beans. The pods are long, straight, nearly round when young and very attractive. One of the best market beans and a very profitable variety to grow.</i>					
TENDERGREEN. Early Prolific. Round Pod. See above.30	1.60	2.85	16.00	75.00

Horticultural Beans

FRENCH HORTICULTURAL. Special Stock. See page 4.35	1.95	3.60	21.00	100.00

<i>One of the Horticultural or Cranberry beans. Pods 4 in. long, flat, green, straight and entirely stringless.</i>					
Ruby Dwarf Horticultural. Also called "Roman" Beans.30	1.65	3.00	17.00	80.00
<i>Used for shelling green. Pods light green splashed with deep red.</i>					

BEANS continued on next page.

French Horticultural Beans

Typical plants in one of our seed fields

If you want a *flat* wax (yellow) bean, grow our strain of Sure Crop. It is fully equal to any and much superior to most stocks offered. It is vigorous, healthy and of upright growth, producing enormous yields of long straight pods. One of the most popular and profitable wax beans to grow. See prices below.

Pencil Pod Black Wax—The Best Round Podded Wax Beans

This is the bean to grow if your trade wants a round pod wax variety. This is a carefully bred stock, which has been especially selected for vigor, high yield and true type. Growers in all sections have been greatly pleased with this stock. See prices below.

DWARF WAX VARIETIES

25 lbs. or more of one variety of beans will be supplied at the 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See page 3)				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
PENCIL POD BLACK WAX. See above.....	\$.30	\$1.65	\$3.00	\$17.00	\$80.00

<i>Pods 5 to 6 in. long, straight, round, clear yellow, stringless and medium early.</i>					
SURE CROP WAX. The Best Flat Wax Bean. See above...	.30	1.65	3.00	17.00	80.00
UNRIVALLED WAX. For Early Market.30	1.60	2.85	16.00	75.00
<i>A heavy yielder of attractive narrow, flat, clear yellow pods of refined appearance. A few days earlier than Sure Crop.</i>					
WEBBER WAX or "Wonder Wax." The Earliest Wax30	1.65	3.00	17.00	80.00
<i>Long, straight, flat stringless pods. Quite free from rust and a heavy bearer. Also called "Cracker Jack."</i>					

LIMA BEANS

A pound of Dwarf Lima seed will plant 150 ft. of row. About 60 lbs. per acre.

Fordhook Bush Lima—The Most Profitable Dwarf Lima

Our stock of this fine bean has earned an outstanding reputation for high yield and quality among successful growers. The pods are uniformly large with choice thick green beans.

With this sure bearing stock, Lima Beans are a profitable crop to grow. See prices below.

	NOT PREPAID* (See page 3)				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
Burpee's IMPROVED Bush Lima	\$.30	\$1.75	\$3.15	\$18.00	\$85.00
<i>Larger pods, thicker, deeper green beans than the old variety.</i>					
FORDHOOK BUSH LIMA. Best for Market. See above...	.35	1.90	3.45	20.00	95.00
Henderson's Bush Lima30	1.60	2.85	16.00	75.00
<i>Small flat pods and beans, early and very prolific.</i>					

IDEAL or Mammoth Podded Pole Lima Bean

This is the largest and best pole lima. The pods are often eight inches long. Early and prolific.

Not Prepaid.* 1 lb. 35c; 7½ lbs. \$1.80; 15 lbs. \$3.30; 100 lbs. \$19.00; 500 lbs. \$90.00.

"I would like to take this opportunity to praise your Fordhook Bush Lima. It is a winner from every angle."

Edgar M. Curtis, Erie, Mich. R.F.D. No. 2. Dec. 5, 1940.

POLE BEANS

A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.

King Horticultural—Harris' Special Large Seeded Strain

This variety is superior to French Horticultural both for yield and disease resistance. The pods are only about an inch shorter and slightly wider than French Horticultural. They are very attractive, being heavily splashed with bright scarlet at the shell stage, straight and entirely stringless. When put on good, well drained land, they can be grown without any support. When grown this way the pods are just as long and straight and they can be picked as easily as the dwarf kinds. This large seeded strain is of our own growing. See prices below.

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See Page 3)			
	1 lb.	7½ lb.	15 lb.	100 lb.
Golden Cluster Wax	\$.30	\$1.90	\$3.45	\$20.00
Long, broad, deep yellow pods of finest quality; beans white.				
KENTUCKY WONDER. (White Seed)—Heavy Yielding30	1.75	3.15	18.00
This is the most uniform and prolific strain of Kentucky Wonder. Long slender pods. Has the added advantage of being white seeded.				
Kentucky Wonder. Also called "Old Homestead"30	1.50	2.70	15.00
Long, slender, green pods of fine quality. Early and very prolific.				
Kentucky Wonder Wax30	1.65	3.00	17.00
Long, flat, yellow pods of fine quality. One of the best wax pole beans.				
KING HORTICULTURAL. Special Large Seeded Strain. See above	.30	1.90	3.45	20.00
SCOTIA. Fine for Roadside Markets30	1.75	3.15	18.00
Extremely prolific, with long round slender green pods of the finest quality. Has proved very profitable as a high quality bean for discriminating trade.				

FIELD BEANS

Sow about 60 lbs. per acre.

BRUSSELS SPROUTS

Rosenkohl (Ger.) Cavolo di Brussels (It.)

1 oz. of seed will produce about 3000 plants.

There is always a good market for first class sprouts, and they are surprisingly easy to grow. The thing to do is to grow the right kinds. We have them.

Catskill

Heavy Producer—Firm Sprouts

We obtained our foundation plants of this stock three years ago from Mr. Arthur White of Arkville, N. Y. Mr. White's stock has long been considered the best by expert growers in this Catskill mountain region where the finest Brussels Sprouts in the country are produced.

This seed was grown on our own farms from plants which were carefully selected to maintain the original true high producing type.

¼ oz. 90c; oz. \$3.00; ¼ lb. \$10.00; lb. \$35.00.

Long Island Improved

The best strain of this famous variety. Supply limited.
Oz. 75c; ¼ lb. \$2.35; lb. \$8.00.

Fancy Basket—Crop failed

"For the first time in my life I had a grand crop of Brussel Sprouts from your new Catskill; large solid compact heads some of them almost 2" in diameter and all plants set heavily." Earle T. Goodnow, W. Cummington, Mass. Sept. 22, 1941.

Mr. Arthur White and a plant of his Catskill Brussels Sprouts

Inset—A box packed for market.

Kraut (Ger.)

CABBAGE*Cavolo capucci (It.)*

Golden Acre Cabbage

One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.

All the Cabbage Seed we offer is

HOT WATER TREATED

This is a most important step in the control of Black-Leg. Added work for us, but **Insurance for you!**

Golden Acre The Earliest Variety

This is recognized as the best early market cabbage and one of the most profitable kinds to grow. Our seed of this popular round head variety is the true originator's strain which we have sold for years and is vastly superior to most stocks sold even at higher prices. See prices below.

"Yellows" Resistant Cabbage

An increasing number of farms each year are showing "yellows sick" soil. Yellows resistant varieties are the only kinds to grow where ground is badly infected with yellows. In many sections where there is slight yellows infection, the ordinary varieties can be grown, but the resistant kinds usually do much better and produce large crops.

Our Yellows resistant varieties have been so carefully developed that you can now grow your favorite type of cabbage in a yellows resistant variety.

We offer these fine stocks:

**Golden Acre, Yellows Resistant
Copenhagen Market, Yellows Resistant
Marion Market, Resistant Copenhagen
Enkhuizen Glory, Yellows Resistant
(Globe)**

**All Seasons, Yellows Resistant
Wisconsin Hollander
Bugner (Late)**

Golden Acre Special**The Best Strain Obtainable**

We are proud that we can again offer the extra selected stock which has been so successful in the past. It is several days earlier and more uniform than our regular Golden Acre. We recommend it to the grower who wants the earliest and best, and is willing to pay the little extra cost for seed. See prices below.

Marion Market**Yellows Resistant—Copenhagen Type**

Great improvement has been made with this stock, so it is now as uniform and true as any of this class. The heads resemble our regular Copenhagen Market in size and shape and are remarkably uniform. Only a few days later than our stock of Copenhagen Market. Should be used wherever there is any indication of "yellows" in your soil. See prices below.

Early and Medium Early Varieties

	Oz.	¼ lb.	lb.
COPENHAGEN MARKET. True Large Headed Stock.	\$.60	\$1.75	\$6.00
Our strain is larger and more uniform than usual strains of this variety. Heads round, hard and have few outside leaves. Larger and about 10 days later than Golden Acre.			
COPENHAGEN MARKET Yellows Resistant.60	1.75	6.00
Round heads resembling our strain of Copenhagen Market, but larger and later. Very uniform for shape and size. A most excellent stock for market or kraut.			
Early Jersey Wakefield. Early Pointed Heads.45	1.20	4.00
Our strain is particularly fine, the heads being very uniform and early.			
ENKHUIZEN GLORY.50	1.35	4.50
A very large, medium early strain. Heads as large as the late kinds and mature much earlier. Has proved to be a most profitable variety for market and kraut.			
ENKHUIZEN GLORY. Yellows Resistant. Globe.50	1.50	5.00
This is a fine uniform large heading stock of Enkhuizen Glory type. It should be used on all yellows infested soils.			
GOLDEN ACRE. See above.60	1.75	6.00
GOLDEN ACRE. Special Strain. See above.75	2.30	8.00
GOLDEN ACRE. Yellows Resistant.50	1.50	5.00
Resistant to yellows, and very even stock of the true Golden Acre type. Ready shortly after our Special strain. Should be used by all who have any "yellows" on their farms.			
LARGE LATE COPENHAGEN. Best for Kraut.50	1.50	5.00
Enormous yielder. Two weeks later than Copenhagen Market. Can be cut for market or kraut. Remains hard without splitting a longer time than any other kind we have seen. Grows 10-12 in. in diameter.			
MARION MARKET. Yellows Resistant. Copenhagen Type. (See above).50	1.50	5.00
GREEN ACRE. Always looks fresh cut.75	2.30	8.00
Type same as Golden Acre, heads a little larger and later. Has an inherent green color which makes them always fresh looking. A remarkably fine stock and has proved a very profitable kind to grow.			
ROUND RED DUTCH. See next page.60	1.75	6.00

Round Red Dutch

This is a fine early *red* variety, only about a week later than Red Acre. The heads are very uniform, attractive, round and solid. They are of a deep red color and resemble Red Acre closely when cut. The plants are larger, very vigorous and yield well even under adverse conditions. Grow some this year. See prices on preceding page.

Danish Ballhead (*Short Stem*) For Late Crop and Storage

This is a most excellent strain of the true short stemmed Danish cabbage. It is a very heavy yielding stock producing large crops. The heads are very uniform for size and shape (see photo to the right) and of fine appearance. They are very firm and solid making this one of the best kinds to grow for late market and storage. See prices below.

Danish Ballhead Short Stem

Harris' Ballhead

Heavy Yielding Danish Cabbage

Harris' Ballhead is the most consistently heavy yielder we know. It is a very vigorous stock, producing uniform hard solid heads with great regularity. The heads are round, usually about 5 to 6 lbs. in weight, greener than most Danish, with a slight tinge of purple. Because of its attractive appearance and superior keeping qualities Harris' Ballhead commands the best prices and often sells when the market is slow. See prices below.

Late or Main Crop Varieties

	Oz.	¼ lb.	1 lb.
ALL SEASONS. Yellows Resistant	\$.45	\$1.20	\$4.00
Especially recommended for "yellows sick" soil where the large semi-flat domestic type for kraut, etc., is wanted. Very highly resistant.			
BUGNER. Yellows Resistant50	1.50	5.00
Because it is yellows resistant, this old variety is becoming more in demand. It is later than Danish Ballhead, and has larger and more flattened heads. A very heavy producer.			
DANISH BALLHEAD. Intermediate. "Fine Keeper"45	1.20	4.00
Heads are deeper and not as flattened as the short stemmed. The color is deeper green and they keep very well in storage. A profitable type to raise.			
DANISH BALLHEAD. Short Stem. Heavy yielding strain. See above.45	1.20	4.00
HARRIS BALLHEAD. See above.50	1.50	5.00
PENN STATE Ballhead. True Stock.60	1.75	6.00
Short stemmed with very solid heads, which are somewhat flatter than most Danish types. This cabbage is noted for its large yield.			
Premium Flat Dutch35	1.10	3.50
SUPER CURLED SAVOY. The Best Variety60	1.75	6.00
Finest Market Gardeners Strain. Closely resembles Chieftain. Fine heads, more savoyed, earlier and more compact plants than most Savoy. This is the most uniform stock we have ever seen and is the type best liked by Long Island growers.			
WISCONSIN HOLLANDER. Yellows Resistant60	1.75	6.00
The best "yellows" resistant Danish type. Under normal conditions will produce fine crops on "yellows sick" soil where ordinary Danish cabbage will not survive.			
MAMMOTH ROCK RED. Sure Heading Strain50	1.50	5.00
The largest red cabbage. The heads are hard, medium round and deep red. This is the best late red kind for market or shipping.			

Chihli

CHINESE CABBAGE—Chihli

This is the Best Variety.

This is the most popular kind and best for market and roadside stands. It has almost entirely replaced all other kinds. The heads are very attractive, often 18 in. long, uniform in shape and size, hard and firm. This variety is by far the best to grow. A profitable crop on muck, as it commands a ready market, and can also be held in storage for winter sales.

Sow the seed in July or August; the crop matures in 8 to 10 weeks. 1 to 1½ lbs. will sow one acre.

Oz. 45c; ¼ lb. \$1.20; lb. \$4.00.

Blumenkohl (Ger.)**CAULIFLOWER****Cavolflore (It.)***One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.***Cauliflower Seed for 1942**

The situation in regard to fine stocks of cauliflower seed is not materially different than it was last year, and growers will do well to get their cauliflower seed from sources upon which they can rely absolutely.

We are very fortunate that we have enough seed of the leading varieties of our own special stocks to supply our customers' normal requirements and at reasonable prices. You do not have to pay exorbitant prices for your cauliflower seed as there is no better seed than ours to be obtained at any price.

While we have a good supply of seed we suggest that our customers order their seed early.

**Snowball—Perfected Strain***See also front cover.*

"Had the best crop of cauliflower the past year I ever grew with your Snowball seed."

F. C. Brehm, Dilltown, Penn. Jan. 6, 1941.

"I certainly like your seeds. Since I have used your perfected strain of Cauliflower seed my cauliflower has topped the market each year."

"Last year I bought some of your Imperial 44 lettuce seed and grew the best heads I ever had, some of them weighed over a pound. I sold some to summer residents near here and they declared it was the best lettuce they ever ate."

Glenn A. Ludlam, Schenectady, N. Y. Feb. 14, 1941.

Super Snowball—True Stock

A very early large heading kind. Under favorable conditions of soil and weather, it produces wonderfully fine crops, a majority of the heads being ready during a short period of time.

Cauliflower growers recognize the value of this fine variety and our customers have found that although there are many strains now offered under a large number of names, our seed has never been surpassed.

We strongly advise our customers not to take chances with their Super Snowball, but to use this true proven strain which has been so extremely satisfactory. See prices below.

Snowdrift**Also Called White Mountain and Improved Holland Erfurt**

In the same season as Snowball, producing large firm heads which are very white. This variety is popular in many sections and is sold under a variety of names. Ours is an extremely fine true stock. See prices below.

Early Purple Head—The Best Italian Purple Cauliflower

Without question this is the finest strain of Italian Purple Cauliflower. The plants produce tight, uniform, good size heads, fully two weeks earlier than other purple stocks. We have started to cut in late September from plants set in the field June 23d.

This stock will produce a larger percentage of true purple heads than any other stock we have ever seen. See prices below.

	¼ oz.	Oz.	¼ lb.	lb.
SNOWDRIFT. See above.....	\$ 1.20	\$4.00	\$14.00	\$50.00
NEW EARLY PURPLE HEAD. Italian Purple. See above.....	.90	3.00	10.00	35.00
SNOWBALL. Perfected Strain. See above.....	1.20	4.00	14.00	50.00
SUPER SNOWBALL. True. See above.....	1.35	4.50	15.50	55.00

Note: We can supply hot water treated cauliflower seed of the varieties and quantities listed in this catalogue at no increase in price. Hot water treated seed is usually a little lower in germination. We will supply untreated seed unless treated seed is specifically requested.

Snowball Cauliflower**Perfected Strain****"No better seed can be bought at any price"**

This is the stock that it pays to grow! Year after year under good and poor growing conditions our strain continues to produce the largest percentage of fine large uniform number one heads; the kind that bring the top prices. It is recognized by the leading growers in the East as the best cauliflower grown.

The heads are unusually deep and heavy, of uniformly good size, beautifully white with a tight attractive curd.

We are glad to assure our customers that again this year we can supply their usual requirements of this fine strain. See prices below.

Carrotten (Ger.)

CARROTS

Carota (It.)

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

Carrot Seed for 1942

There is again a distinct shortage of carrot seed, and no doubt considerable amounts of seed of low germination and inferior breeding will be offered for sale. While our supply of some varieties is limited, we expect to have sufficient seed of our usual high quality to take care of our customers. *We advise ordering early!*

Supreme Half-Long—"A Red Cored Danvers"

This new carrot has proved a very popular and profitable variety for those who have grown it.

It is really a more slender, refined, coreless strain of the Danvers type. The roots are good size, very attractive; of deep orange color and quite smooth. The carrots are a solid deep orange, with a small "red" core. The tops are not too large, making this a fine carrot both for bunching and busheling. See prices below.

Chantenay

Special Strain—Long—Smooth

We have a very superior stock of this old favorite which has been improved in many ways. The roots are fully an inch longer than Red Cored, and are smooth and uniform. The quality has been so improved in recent years that this new Chantenay is practically "coreless" and a fine quality carrot in every way. The yield as always is high. See prices below.

Red Cored Chantenay

We have an excellent stock of this popular carrot and our customers are well pleased with it. This stock will produce enormous crops of fine smooth carrots, and has been so improved in recent years that it is practically 100% red cored. It is used both for market and as a high quality kind for canning. Red Cored Chantenay does remarkably well on muck, making a long smooth root of very attractive appearance. See prices below.

Supreme Half-Long Carrots

	¼ lb.	lb.	10 lb.	25 lb.

<i>We have a pure heavy yielding stock of this popular variety.</i>				
HUTCHINSON. True New England Type.	1.30	4.25	41.50	100.00
<i>Produces large roots 9 to 10 in. long, nearly the same size the whole length and stump-rooted. Color light orange. This carrot yields large crops and is used extensively as a topped carrot in the New England area and other large markets in the East. We have a very superior and dependable stock.</i>				
IMPERATOR. Fine for Bunching	1.25	4.00	39.00	95.00
<i>This fine bunching carrot produces smooth, somewhat tapering roots often eight inches long, of deep orange color. The tops are just right for bunching. Crop short.</i>				
MORSE'S BUNCHING (Crop failed)
<i>A long, deep orange carrot which has become very popular for bunching. Almost 100% coreless.</i>				
NANTES. Also called CORELESS	1.35	4.50
<i>An excellent variety for bunching or topped carrots. Grows 6 to 7 in. long, smooth and cylindrical. Entirely coreless and of the finest quality. Crop very short.</i>				
PERFECTION	1.05	3.40	32.50
<i>This carrot is similar to "Coreless" described above, but is longer, being 7 to 8 inches long. They are practically the same size the whole length and coreless. Fine for fall bunching or topped carrots in fall and early winter.</i>				
SUPREME HALF LONG. (New) See above	1.25	4.00	39.00	95.00
TENDERSWEET. The Sweetest Carrot.	1.00	3.25	31.00	75.00
<i>This carrot is being grown more and more for market. The roots are large smooth and tapering, of striking deep orange red color. They are a good bunching carrot and are of very superior quality.</i>				

"Over 40 years of gardening, I am still buying my seeds of Joseph Harris Co., Inc. and find they are all they represent them to be. Strong healthy plants and heavy crops are assured with your seed."
 Phillip A. Richardson, Leominster, Mass. Feb. 19, 1941.

Bleich-Sellerie (Ger.)

CELERY

Sedano (It.)

Summer Pascal

Mr. W. R. Slaunwhite of Waltham, Mass.
with some of his fine crop.

This is slightly earlier, similar in appearance and height to our regular Golden Plume. The stems however, are thicker, average longer and are of better quality. The stems are usually 8 to 9 inches long and are firm and crisp. Blanches quickly but stands up well and will produce heavy yields of the finest celery. See prices below.

Yellow or "Self-Blanching" Varieties

	Oz.	¼ lb.	lb.
GOLDEN PLUME or WONDERFUL. Original Strain. See above.....	\$.75	\$2.35	\$ 8.00
GOLDEN PLUME. New Tall Strain75	2.35	8.00
Stems are longer to the first joint than the old strain. It is definitely a taller plant but not quite as large in diameter. Better suited for upland than muck.			
GOLDEN SELF-BLANCHING. "Old" Strain75	2.35	8.00
This old standard variety continues to be a very profitable strain to grow for late celery. The stalks are large with large heavy hearts and tall enough to nicely fill a standard celery crate.			
MASTERPIECE. (NEW) See above.....	¼ oz. 40c	1.25	4.25
SUPREME GOLDEN. (NEW) New tall type	¼ oz. 35c	1.00	3.40
Definitely taller and earlier than Golden Self-Blanching. The stems are long, thick and make a good heart. The plant is very compact and erect, making an excellent pack. Has been resistant to yellows with some of our customers.			
SUPER PLUME. (NEW) See above.....	¼ oz. 35c	1.00	3.40
Green Varieties			
EASY BLANCHING "Newark Market" or Sanford Superb60	1.75	6.00
It has the same dwarf, compact habit of growth as Golden Self-Blanching (Old) blanches quickly, and is of fine quality. Leaves are green and the stalks blanch white.			
GIANT PASCAL. Special Strain. (Late)50	1.50	5.00
This strain of Giant Pascal is largely used in New England and is considered one of the very best for late winter market. The stalks are large, solid and blanch pure white.			
SALT LAKE or UTAH. The Favorite Green Celery. See below.....	.85	2.85	10.00
SUMMER PASCAL. New—Early—Green. See below.....	¼ oz. 40c	1.25	4.25

Summer Pascal—New, Early Green Celery of Superior Quality

Because of its earliness, fine quality and attractive appearance, this new celery has become very popular in New England, Pennsylvania and other sections where green celery is grown. The plant is medium tall, very uniform with long, thick, rounded stalks. The stems blanch quickly and are of the finest quality. This is an early variety, ripening shortly after Easy Blanching.

Among the many strains of this variety we have grown and tested, this has proved to be the best. We offer New York State grown seed. See photo and prices above.

Salt Lake or Utah—The Favorite Green Celery

Salt Lake is the standard where a superior green kind is wanted for fall market and storage. Growers who have used our strain for ten years are very enthusiastic in its praise.

The plant grows to a good height with a well developed and heavy heart. The individual stalks are *very thick*, crisp, of high quality and blanch more quickly than other green varieties except Summer Pascal described above. They are firm, with practically no soft stalks. See prices above.

An ounce of seed will produce about 8000 plants.
It requires 20,000 plants to the acre.

**Golden Plume or Wonderful
Original Strain**

This is our original type of Golden Plume which has proved so satisfactory to our customers. The stalks are very large with remarkably heavy hearts and with thick solid stems. Crops which pack 4 doz. to a standard ⅔ crate are not at all uncommon.

Many of the best celery growers in the country get their seed of Golden Plume from us. They find that they can get best results without having to pay a fancy price for their seed. See prices below.

Masterpiece—Early—Golden

Since its introduction a few years ago this fine new variety has become very well liked by celery growers. It is an early larger celery of the Golden Self Blanching type. The plant is robust and fairly tall with long (8-9 in.), broad, very thick rounded stems. The quality is superior being tender, free from strings and of the finest flavor. Masterpiece is well worth growing. See prices below.

Super Plume

CELERIAC—Turnip-Rooted or “Knob” Celery

	Oz.	¼ lb.	lb.
LARGE SMOOTH PRAGUE. Best for Market.....	\$.25	\$.75	\$2.50
<i>This is the standard market garden variety.</i>			
DELICACY. Grow for fine quality.....	.30	.90	3.00
<i>This variety produces medium size bulbs of superior quality.</i>			

Welschkorn (Ger.)

SWEET CORN

Mais (It.)

*One pound of seed will plant 350 to 400 hills;
10 to 12 lbs. will plant an acre. A bushel
weighs 48 lbs.*

**Harris' Northern Grown
Sweet Corn**

For many years we have made a specialty of growing both open pollinated and hybrid sweet corn seed here in the North on our own and nearby farms. We are large producers of the finest strains of the best market varieties.

Combining scientific breeding and careful selection with the greatest care in growing, drying and cleaning, we produce seed corn of the highest standard of vitality and purity.

Hybrid Sweet Corn

The large number of Hybrids offered make it difficult for the grower to select the best. We have chosen the best of these hybrids and offer to our customers *seven* varieties which cover the season from extra early to late or main crop. Our hybrid corn is grown from proven pure line parents and great care is taken in detasseling the seed parent.

Hybrid corn cannot be saved for seed the next year as it will break down.

Northern Cross

Note the large uniform ears.

Northern Cross

An Early and Tremendous Yielding Hybrid (73 days)

Since its introduction by us in 1938 this hybrid has proved to be a money maker for the grower. It is a variety of great vigor with fine strong sturdy plants which will produce great crops of large even ears. There are usually two and often three good ears to a plant. It is truly a tremendous yielder of fine large ears and is well suited to fill the gap between the extra early and later kinds.

These large ears are very uniform in size, usually eight inches long with 12-14 rows of bright yellow kernels. They are very attractive in appearance and of exceptionally high quality.

Northern Cross is ready a few days before Whipple's Yellow and from 10 to 12 days earlier than Golden Cross Bantam. This variety is a product of our own breeding here in the North, being a cross between two of our own inbreds and can be produced only by us. See prices on page 13.

Caution: Northern Cross is not resistant to Stewart's Disease (wilt).

North Star

New Extra Early Hybrid (67 days)

Ripening only a few days after Seneca 60, yet having the same large ears as many later varieties, North Star was a great success wherever grown this year. Growers are delighted with its rapid and vigorous growth and report that it usually yields two marketable ears per stalk.

The kernels are deep, creamy gold and exceptionally tender and sweet. Ears are fully 7 inches long, mostly 12 rowed, and well protected by a fine large husk which makes them very attractive. The ears sell at a premium on sight, and the wonderful flavor and tenderness brings the customers back for more. See prices on page 13.

Note: Our seed supply of this variety is very limited again this year, and we regret we cannot sell more than 12 lbs. to a customer. First come first served, so be sure to order early.

When Different Varieties Mature

We give after the names of the different varieties listed in this catalogue the approximate number of days in which the corn matured in our trials that were planted about the middle of May. As the time required varies greatly according to the weather, time of planting, and fertility of the soil the figures should be regarded as relative rather than actual.

SWEET CORN continued on next page.

SWEET CORN—Continued

Seneca "60"—The Earliest Hybrid (65 days)

This new corn is the earliest *Hybrid* in production and one of the earliest varieties. We know in our trials it has been ready in 65 days and we have seen it mature under ideal conditions in sixty days.

The stalks are 4 to 4½ feet tall, with eight rowed, golden yellow ears about 6 inches long, and ripening a large part of the crop over a short period of time. We recommend this hybrid highly, where an extra early variety is wanted. Not resistant to Stewart's Disease. See prices on next page.

Early Bancross 39 (74 days)

Has proved a winner for growers who want a large uniform ear maturing before Golden Cross Bantam. They are practically the same size and shape and are ready fully ten days earlier.

The plant is rugged and prolific, with the majority of the plants producing two good ears. It is moderately resistant to Stewart's Disease (wilt), and has produced large early crops where other corn has failed entirely.

Our seed of this new hybrid has been produced under our careful supervision by a top cross of Purdue 39 on our own selected stock seed of Harris' Extra Early Bantam. This corn should be sown at the same rate as the open pollinated varieties. See prices on next page.

Ioana**Large Eared—Midseason—Wilt Resistant (86 days)**

Developed by Dr. E. S. Haber of Iowa State College, this outstanding new hybrid has been welcomed by sweet corn growers as an exceptionally fine large eared variety for main crop.

The ears are large, slightly tapering, mostly 8 to 9 inches long with 12 to 14 rows (a few 16) of creamy yellow, medium deep kernels, which fill the ear well at the tip.

These large attractive ears are of fine quality being sweet and tender. The plant is tall and strong and is resistant to Stewart's Disease (wilt).

In some sections where large crops of sweet corn are grown for market, some of our customers prefer it even to Golden Cross Bantam. Be sure to grow some this year. See prices on next page.

"I am pleased with the performance of your seeds last year and would like to try a hand at your latest hybrid corn."

Joseph E. Fleschner, Stapleton, N. Y. Jan. 21, 1941.

"I was more than pleased with the results obtained from seeds purchased from you last year. It was the worst in many years for growing conditions, but did not stop your seeds from giving us better than average results."

Richard Ware, Wilmington, Vt., May 26, 1941.

Ioana

A typical ear of this beautiful hybrid.

Golden Cross Bantam**Wilt Resistant—High Yielding—Uniformly Large Ears (84 days)**

The demand for this corn has been so great that many inferior stocks are now being offered. Growers should be particularly careful to get their seed from reliable sources. You can depend on our stock. It is outstanding for uniformity and high yield. Every pound was grown here in Western New York from tested pure line parents and the seed rows were thoroughly detasseled.

This stock will produce large crops of beautiful ears of remarkably uniform length (about 8 in.) and mostly with 12 rows of bright golden yellow kernels. They mature about a week later than the old fashioned Golden Bantam with the whole crop ripening at nearly the same time.

For best results sow not more than six pounds per acre.

See prices on next page.

Harris' Extra Early Bantam—Heavy Yielding Extra Early Sort (68 days)

Introduced by us in 1927; this has proved one of the most profitable varieties for the grower ever offered. In spite of the growing demand for larger ears in some markets, many growers find that because of the earliness, large yield and superior quality, Harris' Extra Early Bantam is still on their "must grow" list. It is not only an extremely heavy yielder but is one of the earliest varieties maturing ears which can be sold at high prices before the market becomes flooded.

The ears resemble true Golden Bantam in size and shape and high quality but mature ten days earlier. They are up to 7 in. long with 8 to 10 rows of golden yellow kernels and are very uniform in size and appearance. See prices on next page.

Whipple's Yellow

Harris' Original Northern Grown Strain. *A Leader for over 20 Years (77 days)*

We are the *original* introducers of Whipple's Yellow Corn and since its introduction in 1920 we have constantly bred and selected it for earliness, uniformity of size and high yield.

We have seen many other stocks of Whipple's Yellow grown in comparison with our own, and without exception ours stands head and shoulders above all the rest. *You cannot afford to grow just an ordinary strain of this fine corn.*

Every pound of this variety which we sell is grown here in the North, on or near our own farm under our supervision from our own carefully bred stock seed. See prices below.

SWEET CORN—Yellow Varieties

Note: 25 lbs. or more of any one variety will be supplied at the 100 pound rate.

*At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the FREIGHT charges. *Write for special prices on larger lots than quoted here.*

CUCUMBERS

Cetriolo (It.)

$\frac{1}{4}$ lb. of seed will plant about 300 hills or 200 ft. of row.
It requires about 2 lbs. per acre in hills or 3 to 4 lbs. drilled.

Harris' Perfection—The Grandest Long Green White Spine

See photo on back cover

If you want the finest long white spine cucumbers, grow Harris' Perfection.

The fruit is straight, smooth and handsome, deep green in color with small white rays at the blossom end, and retains its deep green color for a long time after picking. The cucumbers will average well over eight inches long when ready for market and are just the right thickness.

Since we introduced Harris' Perfection in 1916, we have kept the stock under our entire control, working constantly to improve the type, yield and uniformity. Even though there have been several very fine varieties of this type introduced in the past few years, many of our customers still prefer Harris' Perfection because it commands a premium over other kinds.

This variety is adapted for dill pickles as well as for general market. See prices below.

**A & C Cucumbers**

Part of the seed crop on our farm.

**A & C
Long, Slender, Dark Green**

A very popular and profitable cucumber where a long dark green white spined kind is wanted.

The cucumbers are 8 to 9 inches long, well proportioned, smooth and dark green in color. They make a very fancy pack. The vines are strong and healthy producing large crops of the finest fruit.

We offer seed of our own growing of the true long strain. See prices below.

Cucumber Seed for 1942

Although cucumber seed is in short supply this year throughout the country, we have good stocks of our varieties. However, we anticipate a heavy demand,* and suggest that you order early and avoid disappointment.

Straight Eight—A Very Prolific Long White Spine

Has become very popular among growers because of the large yield of fine straight cucumbers. When ready for market the cucumbers are 8 to 9 inches long, straight, smooth and somewhat blunt ended. The color is medium dark green with green rays at the blossom end. We can recommend Straight Eight for a money making crop. See prices on next page.

Harris' Double Yield

Enormous Yields of the Finest Pickles

Since we introduced this variety a number of years ago it has become increasingly popular among growers because of the enormous yield of fine straight pickles. The young cucumbers are produced in clusters of three or four like the fingers of your hand.

The cucumbers are very straight with blunt ends, medium deep green in color and of the very best shape for small pickles. This is also the earliest variety we know, enabling growers to plant late and still get a large yield of fine fruit. See prices on preceding page.

Double Yield Pickles

Irondequoit Hothouse—Greenhouse Grown Seed

This is the famous variety which has been developed by the greenhouse growers around Rochester. The seed has been saved for us from perfect fruit grown under glass by an expert cucumber grower in Irondequoit. It will produce remarkably fine uniform cucumbers. The fruit is long, slender, and deep green, almost entirely solid, having very few seeds. The vines are vigorous and very prolific. 100 seeds 75c; 250 seeds \$1.75; 500 seeds \$3.25; 1000 seeds \$5.50.

WITLOOF CHICORY—French Endive

An ounce of seed will produce 3000 to 5000 roots.

WITLOOF CHICORY. Special Forcing Strain. An exceptionally fine strain, grown from especially selected fully developed forced heads. Will give a high percentage of perfect heads when forced. Oz. 50c; ¼ lb. \$1.50; lb. \$5.00.

COLLARDS

GEORGIA. Large cabbage-like leaves, which grow loosely on stems 2½-3 ft. tall. Does not form heads. May be sown in spring and transplanted like cabbage or drilled in June or July. Popular in the South for table use and stock feeding. Oz. 10c; ¼ lb. 30c; lb. 90c; 10 lbs. \$8.00.

Feld Salat (Ger.)

CORN SALAD or Fetticus

Valeriannt (It.)

LARGE ROUND-LEAVED. Market Gardener's Dark Green Strain. The leaves are uniformly large, and dark green. Yields large crops. Oz. 25c; ¼ lb. 70c; lb. \$2.15; 10 lbs. \$20.00.

Garten-Kresse (Ger.)

CRESS

Agretto (It.)

EXTRA FINE CURLED—Also called Pepper Grass. True. Oz. 25c; ¼ lb. 75c; lb. \$2.50.
WATER CRESS. Improved Broad-leaved. Crop failed.

Loewenzahn (Ger.)

DANDELION Dente di leone (It.)

Large Thick Leaf

This strain is the thick leaf, dark green variety, with strong, upright growing plants and good hearts. We now offer high germinating seed of our own growing. Oz. 55c; ¼ lb. \$1.60; lb. \$5.50; 10 lbs. \$50.00.

Improved Arlington

This is the finest strain of the Arlington type, white ribbed. Leaves very dark green, thick and attractively cut. Plants not as upright as above. True seed produced on our own farm. Oz. 60c; ¼ lb. \$1.75; lb. \$6.00; 10 lbs. \$55.00.

Dill (Ger.)

DILL

Aneth (It.)

LONG ISLAND MAMMOTH is much superior to the common dill, being larger and more productive. Oz. 15c; ¼ lb. 30c; lb. \$1.00; 10 lbs. \$9.00; 100 lbs. \$80.00.

Large Thick Leaf

Eier Pflanze (Ger.)

EGG PLANT

Melanzani (It.)

An ounce of seed will produce about 2000 plants.

Black Beauty—Prolific Strain

We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy, producing an abundance of uniformly large handsome dark purple fruit even here in the North. See prices below.

	Oz.	¼ lb.	lb.
BLACK BEAUTY. True Stock. See above.	\$.50	\$1.35	\$4.50
EARLY LONG PURPLE. Early and Prolific. Dark. True Stock.45	1.20	4.00
Fruit 7 to 9 in. long, not over 2 to 3 in. through. Early and very prolific, deep purple.			
Extra Early Dwarf Purple or Black King.45	1.20	4.00
Very early, dark and prolific, but not as large as above kinds.			
NEW HAMPSHIRE HYBRID. Extra Early and Prolific.60	1.75	6.00
This new variety, which was developed by Dr. J. R. Hepler of the New Hampshire Agriculture Experiment Station has proved a real acquisition for growers who have difficulty in producing egg plants profitably in the North. It is earlier than Black Beauty, remarkably prolific. The fine dark colored fruit is oval in shape and medium size. On our farm it produced 8 to 10 good size fruits and several smaller ones on a single plant. Seed grown on our own farm and of high germination.			

Fenchel (Ger.)

FENNEL

Finocchio (It.)

FLORENCE. Standard variety. Reliable producer of good bulbs. Oz. 25c; ¼ lb. 75c; lb. \$2.50.

Endivien (Ger.)

ENDIVE

Endivia (It.)

An ounce of seed will sow about 100 feet of row; 2 to 2½ lbs. per acre.

	Oz.	¼ lb.	lb.
DEEP HEART FRINGED. Broad fringed leaves. (New)	\$.20	\$.60	\$2.00
An entirely new and distinct variety. Large and robust with broad fringed leaves and a good heart when fully grown. All growers of endive should try some. See also our general catalogue.			
GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed15	.40	1.25
The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. A favorite of market gardeners. This variety does best on rich soil.			
GREEN CURLED. Also called "Chicory." Green ribbed.15	.40	1.25
Leaves finely cut and curled. Exceptionally uniform with a fine heavy heart.			
FLORIDA DEEP HEART.15	.45	1.50
Broad leaves, dark green, slightly curled, produces large deep heads, which blanch well in the center. One of the best varieties, especially for late market.			
FULL HEART BATAVIAN (Escarolle). True Dark Green Strain15	.45	1.50
Our strain of this variety produces heads which are tightly packed with broad dark green leaves. The full hearts blanch to a beautiful golden color.			

French Endive—Witloof Chicory See under *Chicory* on preceding page.

Knoblauch (Ger.)

GARLIC

Agljo (It.)

The bulbs should be separated into flakes or "cloves" and set out like onion sets. Bulbs for planting: Lb. 50c; 5 lbs. or more at 45c per lb. Transportation paid.

Herbs for Flavoring, etc.

	Oz.	¼ lb.	lb.		Oz.	¼ lb.	lb.
BASIL. Large leaf Green	\$.75			SUMMER SAVORY	\$.75	\$2.50

KALE

Cavolo verdi (It.)

One pound of seed will sow about one acre of land.

	¼ lb.	lb.	10 lb.
DWARF CURLED or Blue Scotch	\$.70	\$2.20	\$20.00
Very fine curled leaves, of dwarf habit and deep bluish green color.			
SIBERIAN. Also called "Sprouts"55	1.75	15.00
Dwarf spreading, broad leaves curled only at the edges. Color blue gray. Very hardy.			

Kohlraben (Ger.)

KOHL RABI

Cavolo rapa (It.)

Early White Vienna

Round white bulbs, early. A very uniform stock. Can be used 10 weeks after sowing. An ounce of seed will sow about 200 ft. of row.

Oz. 45c; ¼ lb. \$1.30; lb. \$4.25; 10 lbs. \$37.50.

Lattich (Ger.)

LETTUCE

Lattuga (It.)

An ounce of seed will sow 250 ft. of row; about 2 lbs. per acre.

Imperial 44—Surest Heading "Iceberg" Lettuce for the East

This new lettuce has proved to be the outstanding "Iceberg" type to grow in the East and is the variety which does best on a wide range of soils, both upland and muck. It produces crops that can compete successfully with western grown Iceberg. Not only does it head better than any other strain but it has shown definite resistance to tip burn. We have seen trial rows cut 100% good heads in July and commercial crops fully 90%.

The head is true Iceberg type, solid and of fine quality. Muck grown heads are usually a little larger than on upland. If you haven't done so by all means grow some Imperial 44 this year. See prices below.

Imperial 44 Lettuce

Grown by Waldo Derwick, Albion, N. Y.

White Boston—Special Strain

Year after year this has proved to be a most dependable stock.

One of the outstanding features of Harris' strain of White Boston is the uniform manner in which it heads, so that there is practically no waste in cutting a crop.

It has proved to be more resistant to tip burn than any variety we have ever seen.

You cannot get a better strain of White Boston Lettuce no matter what you pay for the seed. Our stock is fully equal to any strain obtainable. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
BIG BOSTON. Special Strain. (100 lbs. \$90.00)	\$.15	\$.40	\$1.25	\$10.00
<i>An exceptionally fine strain of this popular variety. The heads are solid and compact, and stand a long time. There is no better stock.</i>				
Black Seeded Simpson.15	.40	1.25	10.00
<i>An excellent loose headed variety.</i>				
Chicken10	.30	1.00	9.00
<i>Immense leaves. Runs up rapidly. Use for green feed for chickens.</i>				
COS or ROMAINE. Trianon Self-folding. The best variety.15	.45	1.50	14.00
<i>Large long heads of fine quality and attractive appearance. Used for forcing under glass and outdoor culture. Always finds a ready sale.</i>				
COSBERG (New) Fine quality30	.90	3.00	27.50
<i>Cross between Cos and Iceberg types. See full description in general catalogue.</i>				
GRAND RAPIDS U. S. No. 125	.70	2.20	20.00
<i>This comparatively new strain of Grand Rapids has proved to be a very superior forcing and outdoor variety where a leaf or "curly" lettuce is desired. The plants are a little more robust than other strains and fill out more, very uniform for size and well curled. The color is light green.</i>				
GRAND RAPIDS.15	.45	1.50	14.00
<i>Excellent for outdoor as well as greenhouse growing and is used by the most critical growers. The leaves are light green, uniformly well curled.</i>				
IMPERIAL 44. (New) See above.30	.85	2.75	25.00
IMPERIAL 847. Black Seed.25	.70	2.20	20.00
<i>Known for its ability to produce fine solid heads of "Iceberg" type. One of the few kinds which will succeed in both muck and upland and produce good heads in July as well as early spring and fall. Heads larger than Imperial 44 and a little later. Many growers have used this strain with marked success.</i>				
May King. For Frame Forcing15	.40	1.25	11.50
<i>A very early head lettuce for open ground or forcing.</i>				
NEW YORK No. 12.20	.60	1.85	17.50
<i>This strain of Iceberg type is still preferred by some growers on upland.</i>				
NEW YORK No. 515. Improved "Iceberg" Type.25	.70	2.20	20.00
<i>Earlier than New York No. 12 and preferred by most growers. Recommended for upland growing only. Heads are large and solid. This is the sure heading strain which has pleased our customers for a number of years.</i>				
SALAMANDER. (Dreer's All Heart or Black Seeded Tennis Ball)15	.40	1.25	11.50
<i>Large heads, stands well in hot weather.</i>				
WHITE BOSTON. Special Strain. See above. (100 lbs. \$125.00)	.20	.55	1.75	15.00

Lauch (Ger.)

LEEK

Porro (It.)

An ounce of seed will sow about 200 feet of row.

	Oz.	¼ lb.	lb.
American Flag or Giant Musselburg. Large thick stalks	\$.75	\$2.35	\$8.00
<i>The stalks are large and very sturdy. The bottoms are clear pearly white and smooth with the white part extending well up the stalk.</i>			

*Melone (Ger.)***MUSKMELONS or Cantaloupes***Popone (It.)**An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.***Market King Muskmelons**

"I know the cost is more but I have had very good results with Market King melons. I think they are the sweetest and best melon on the market and predict they will speedily drive other old varieties from the market."

Clarence Van Winkle, Lounsbury, N. Y. Jan. 8, 1941.

Harris' Muskmelon Seed

Growing seed of early, highly productive and fine quality muskmelons for northern Market Gardeners has been one of our specialties for over twenty years. Our fields have been remarkably free from disease and our special strains are now considered the standard of excellence. You can be sure that these are the best muskmelons for the North.

**HOTENTS
for Melons**

These large strong field forcers are ideal for vine crops such as melons and cucumbers. Economical and practical. Used by successful growers everywhere. See Inside Back Cover.

Market King**A Fine Quality Melon for Market and Shipping**

These melons are so remarkable for their uniform sweetness and high flavor that one can actually cut hundreds without finding a poor melon. For this reason alone many growers are changing to Market King each year.

This is an exceptionally good melon for shipping as well as for local markets where a medium size melon is wanted.

The melons are medium size, grow very evenly, and are extremely heavily netted. They are oval in shape without deep ribs. The skin turns to a creamy yellow when ripe. The flesh is very thick with a small seed cavity, deep orange in color and of fine texture.

The vines are more healthy and vigorous than any kind we have seen, producing an enormous yield of fine fruit. This melon ripens normally a week later than Honey Rock and a few days later than Bender's Surprise.

Our crop this year was particularly fine, and we are pleased to offer disease-free seed of high germination. See prices on next page.

Delicious—The Earliest Large Melon

This fine melon is becoming more and more popular for local markets and roadside stands. It is the earliest large melon of high quality grown, and we recommend it most highly. As it will not stand long distance shipping, we do not recommend it for this purpose.

Our strain is noted for earliness, large yield, vigor of vine, uniform size and type and remarkably sweet flavor. If you grow melons, plant some Delicious. See prices on next page.

Bender's Surprise**Harris' Specially Selected Northern Grown Strain**

This is still the leading large melon for the East, as these large, heavily netted melons have as yet no equal for combined large size, attractive appearance, fine flavor and long keeping qualities.

We have bred and grown this stock for over twenty years here on our own farm always paying special attention to high quality, earliness and trueness of type. This careful selection has made ours the *one* outstanding stock of this variety.

Although this is *not* the true old Irondequoit, which has practically disappeared from trade, growers and consumers refer to this variety now when they say "Irondequoit" melons.

There is no use buying inferior seed when Harris' Northern Grown Bender's can be purchased at the low price we charge. See prices on next page.

MUSKMELONS continued on next page.

MUSKMELONS—Continued

	Oz.	¼ lb.	lb.	10 lb.
ARISTOCRAT. Superb Quality	\$.35	\$1.00	\$3.25	\$30.00
Large melons with very thick flesh of unexcelled quality. Does not keep well enough for general shipping, but at roadside stands with discriminating trade it will command highest prices because of the fine quality and appearance.				
BENDER'S SURPRISE. Harris' Special Strain. See page 18.....	.25	.75	2.50	22.50
DELICIOUS. The Earliest Large Melon. See page 18.....	.25	.75	2.50	22.50
Emerald Gem15	.35	1.10	10.00
Small, round, green, slightly netted, with yellow flesh of finest flavor; very early and prolific. A very uniform stock.				
Golden Champlain. Also called Lake Champlain				
We have discontinued this melon. We recommend "Delicious" described on preceding page as the best early variety.				
HALE'S BEST. For Distant Markets15	.35	1.10	10.00
The earliest and best of the Rocky Ford type for the East. Medium size, oval fruit. Very heavily netted. Flesh thick, deep orange and of finest quality. Ours is an excellent stock with fruit that is remarkably uniform in size, shape and quality.				
Hearts of Gold (Large strain)15	.40	1.25	11.50
A fine melon for shipping, medium in size, round and well netted. Flesh thick, orange yellow, of uniformly excellent flavor. We have a fine stock of the large strain of this well known variety.				
HONEY ROCK or SUGAR ROCK15	.40	1.35	12.50
We have a fine stock of this popular melon which is largely grown in many sections because of its attractive appearance, fine flavor and ability to stand handling. The melons are nearly round, about 5" in diameter.				
MARKET KING. See page 18.....	.25	.75	2.50	22.50
Queen of Colorado or Pride of Wisconsin20	.55	1.75	15.00
Similar to A & C, Jersey Gold, etc. This is a true, heavy bearing stock which we are sure will give entire satisfaction.				

Wasser-Melone (Ger.)

WATERMELONS

Cocomero d'acqua (It.)

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

The varieties we have listed here are all suitable for growing in the North, as they are early kinds and in our climate under usual conditions will produce ripe fruit before frost from seed sown in the open ground. See our general catalogue for full descriptions.

	Oz.	¼ lb.	lb.	10 lb.
DIXIE QUEEN. (Early)	\$.15	\$.45	\$1.50	\$14.00
<i>One of the best for the North. Early and very productive. Skin light green with darker stripes. Flesh deep pink, of fine quality. Stands up well for shipping and an excellent kind for local market or shipping. True stock.</i>				
HUNGARIAN HONEY. The Sweetest Watermelon12	.30	1.00	9.00
STONE MOUNTAIN. Try This One For Market12	.30	1.00	9.00
Large, oval somewhat flattened ends. Fine quality and prolific.				
WINTER QUEEN. White Skin Long Keeper12	.30	1.00	9.00
WONDER MELON12	.30	1.00	9.00
The largest and best of the oblong varieties for growing in the North. They are early, dark green with bright red flesh of fine quality. Will produce large crops even when the seasons are short.				
GREEN CITRON or Colorado Preserving10	.25	.75	7.00
Not a true watermelon, outer flesh is used in preserving. Very prolific. Green seeded.				

Champignonbrut (Ger.)

MUSHROOM SPAWN

Fungo pratajola (It.)

Full directions for growing are sent with each order of spawn.

Finest pure culture spawn, absolutely fresh. Mushrooms can be raised in cellars or under greenhouse benches where the temperature can be kept between 50 and 60 degrees.

Ours is pure culture spawn grown by one of the largest mushroom producers.

BOTTLE SPAWN. (White). Grown in bottles under sterile conditions after which the bottle is removed and the spawn packed in a carton. One carton will spawn 40 sq. ft. of bed.

Price: Single Carton \$1.25; 3 cartons \$3.00. Prepaid. Not prepaid: 10 or more cartons at 80c per carton. Weight per carton about 1 lb. *Write for prices on larger quantities.*

MUSTARD

An ounce of seed will sow about 300 feet of row.

	Oz.	¼ lb.	lb.	10 lb.
FORDHOOK FANCY. (Long Standing)	\$.15	\$.30	\$1.00	\$9.00
Leaves are slightly smaller and more finely cut and curled than the Southern Curled. A very pure stock.				
LONG STANDING. (Southern Curled)15	.30	1.00	9.00
Will stand without bolting to seed for a long time. During the hottest part of the summer this variety has stood for three weeks after it was large enough to cut, without going to seed. The leaves are a medium dark green with beautiful finely curled edges.				

Mangels and Sugar Beets—For Stock

We regret to advise that we are unable to offer any seed of Mangels or Sugar Beets this year.

Ocher (Ger.)

OKRA or GUMBO

Ocra (It.)

PERKINS' LONG-POD. Standard Market Variety. Large green pods. Ours is a true uniform stock. *An ounce of seed will sow about 50 feet of row. Oz. 10c; ¼ lb. 20c; lb. 60c.*

Zweibel (Ger.)

ONIONS

Cipolle (It.)

An ounce of seed will sow 125 feet of row. It requires 5 to 6 lbs. of seed per acre.

Early Yellow
Globe Onions

Onion Seed for 1942

Seed of this important vegetable is extremely short again for 1942 and we urge our customers to order early. You can buy Harris' onion seed with every confidence. We will not handle seed of inferior quality or poor germination under any circumstances.

Early Yellow Globe The Best Early Yellow Onion

Earliness, enormous crops, fine appearance and unusually good handling and keeping qualities have made this variety the leading early onion both for upland and muck.

The onions mature at least two weeks before Brigham Yellow Globe, are nearly globe shaped, deep yellow in color and with a good skin.

We are pleased to be able to offer our customers the same stock of Early Yellow Globe which has been so satisfactory for the past eight years. See prices on next page.

Brigham Yellow Globe

Also called "Michigan Onion" and "Michigan Strain"

The Best Variety for Storage

This remarkable onion together with Early Yellow Globe has practically taken the place of all other kinds in the East and Middle West for growing on muck and is also a very popular upland variety.

It is outstanding because of the large yields obtained, the fine rich golden color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is of the *true Brigham Strain*, deep globe in shape and even more uniform for type and size than it was when first introduced. See prices on next page.

Riverside Sweet Spanish—Utah Strain

This fine large onion can be grown almost anywhere in the East and is becoming more popular each year. It is an excellent variety both for upland and muck. The onions are large and handsome often weighing a pound or more and are fine keepers.

They require a little more time than the early varieties but are vigorous, hardy growers, withstanding adverse growing conditions better than any other kinds we know. See prices on next page. See also plants on next page.

Harris' Onion Sets

We supply clean, firm, uniform and true to name onion sets. These are the best onion sets that can be obtained. See prices and varieties under ONION SETS on next page.

"For some 30 years I have found your products of the best quality and your service excellent."
Delos K. Sheldon, Brockport, N. Y. Feb. 25, 1941.

"I have used your seed upwards of 45 years and your descriptions and seeds have always been excellent."
E. B. Underhill, Poughkeepsie, N. Y. Mar. 18, 1941.

ONIONS—Continued

BRIGHAM YELLOW GLOBE. Also called "Michigan Onion." See preceding page.	\$1.50	\$5.10	\$49.50	\$120.00
EARLY YELLOW GLOBE. Best early globe onion. See preceding page.	1.50	5.10	49.50	120.00
EBENEZER or "Japanese." Grow for sets This very fine yellow onion will keep all winter and has a mild, pleasant flavor. They are flattened and of a light, yellow color. It is important to get the true Ebenezer. We have it.	1.20	4.00	39.00	92.50
JAPANESE BUNCHING. Large straight onions Make 3 to 5 large straight mild white onions to a plant, is a rapid grower and produces marketable "bunch" onions very early. When fully grown, the onions are nearly an inch in diameter.	1.50	5.10	49.50	120.00
Mammoth Silver King Very large white, flat onion used principally for bunching while green. Seed sown in the spring makes large bunching onions in July and August.	1.35	4.50
RIVERSIDE SWEET SPANISH—Utah Strain. See preceding page.	1.95	6.75	66.00	160.00
SOUTHPORT RED GLOBE. The Best Red Onion. Large, perfectly round, deep red onion; keeps well and is by far the best red variety. Ours is a very superior stock. Crop short.	1.90	6.50
SOUTHPORT WHITE GLOBE. (The Finest White) The largest and finest white onion. A very profitable variety for experienced growers as it always commands the highest prices.	1.95	6.75
WHITE PORTUGAL or SILVER SKIN. Standard for Bunching. Flat, white onions of mild flavor and early. Excellent for pickling and early green onions.	1.90	6.50

ONION SETS

One peck of sets will plant 600 to 700 feet of row. Use 12 to 20 bu. per acre.

EBENEZER or "JAPANESE." The Best Yellow Sets. True Stock. 8 lbs. (Pk.) \$1.70 Transportation paid. Not paid, 32 lbs. (Bu.) \$3.60; 5 bu. or more at \$3.45 per bu.

SILVERSKIN. (White). Best for bunching. 8 lbs. (Pk.) \$1.90 Transportation paid. Not paid, 32 lbs. (Bu.) \$4.00; 5 bu. or more at \$3.85 per bu.

Write for prices on larger lots.

Note: We will not ship onion sets until in our judgment danger of freezing is past, unless we are specifically instructed to do so.

ONION PLANTS

Riverside Sweet Spanish—Utah Strain

These plants which are grown in Texas have proved excellent for raising both early green onions and dry bulbs for late summer sale. More gardeners find it profitable each year to grow onions from our plants and our sales of onion plants in the past few years have steadily increased from a few thousand to more than two millions.

Our experience has shown that Riverside Sweet Spanish is the most satisfactory kind to grow, so we do not offer any other kind. When set in the spring will produce large firm onions of the finest type in 8 to 10 weeks.

These plants are sold on the basis of bunches only. While the count is usually 100 plants or more, it may vary between 75 and 110 per bunch, depending on the size of the plants. Because of the methods used in pulling and packing these plants in Texas and the low cost of the plants we cannot guarantee the count per bunch.

Price: 10 bunches \$1.90 transportation paid. Not paid, full crate (60 bunches) \$6.50. Weight per crate, 30 lbs.

Write for prices on larger lots.

Note: Onion plants can be supplied between April 15th and May 20th only. These plants can be ordered at any time for shipment between the above dates. Please state on the order when you want the plants sent.

A Typical Bunch of Riverside Sweet Spanish Onion Plants

PEANUTS

EARLY SPANISH. This is the earliest variety. Can be grown successfully here in the North on light warm land. Lb. 40c; 5 lbs. \$1.65; 10 lbs. \$2.75.

*Petersilie (Ger.)***PARSLEY***Prezzemolo (It.)**An ounce of seed will sow about 200 feet of row.***Paramount—The Outstanding Parsley**

This is the finest and most uniformly curled strain of parsley we have ever seen. It is slightly more dwarf and slower growing than Champion. The leaves are all finely curled, of a rich deep green and with stems of good length. There are no flat leaves. Altogether this is a superb variety both for outdoor growing and forcing and we recommend it highly. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
CHAMPION, or Triple Moss Curled.	\$.15	\$.30	\$1.00	\$ 9.00
<small>This is a very superior strain. Although not quite as finely curled as Paramount, it is an early, rapid growing stock which will produce an abundance of fine parsley and give satisfaction wherever used.</small>				
PARAMOUNT. Finest Curled. See above15	.35	1.10	10.00
Plain, large flat leaves, not curled. Used for flavoring10	.25	.80	7.50

Parsley for Roots

HAMBURG (Heimisher). Long or Parsnip Rooted. Selected Stock.10	.30	.90	8.00
<small>The roots are up to 8 in. long, parsnip-shaped, smooth and white. We have a very fine stock of this variety, which produces long, straight, thick roots. We have never seen a better strain.</small>				

*Erbesn (Ger.)***PEAS***Piselli (It.)**One pound of peas will plant 100 ft. of row. Two to five bushels per acre.*

*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.

The varieties we offer here are carefully selected as the best market garden kinds. Our seed is grown from the purest stocks, and is fully matured, carefully cured, hand picked and of high germination. We will not handle any other kind of seed.

World's Record—Earliest Large Podded Peas

Without question this popular variety is recognized by the best growers as the most profitable for their early crops. In it are combined earliness, fine quality, large pods, and large yield. The pods are large and attractive, 3 to 4 inches long, pointed, medium dark green and contain large peas of the finest flavor.

The vines are usually about 2½ feet high, sturdy and bear large crops which are ready over a short period of time. We offer an exceptionally dependable early stock of this popular variety which we can recommend highly. See prices on next page.

Laxton's Progress—Large Podded—Medium Early

We offer a very superior stock of this excellent variety which produces heavy yields of large handsome pods with great regularity.

The vines grow 15 to 18 in. high and are covered with an abundance of large deep green pods 4 to 4½ in. in length. The peas ripen so uniformly that ordinarily two pickings will clean up the crop.

The big, handsome, well filled pods find a ready sale making this variety one of the best kinds to follow the extra early sorts. See prices on next page.

Midseason Giant*(Giant Stride, Wyoming Wonder, etc.)*

This variety comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are large (4½ to 5 in. long) dark green and pointed. The yield is large, the pods being borne in great numbers on strong vigorous vines about 24 in. high. See prices on next page.

Rogers Gilbo—Large Podded Main Crop Peas

This fine new variety has become one of the most popular sorts of the Midseason Giant or so called "Stride" group. It is a few days earlier than Midseason Giant and has the same sturdy vines and large yields of big pods.

The pods are very attractive, 4½ to 5 in. long, dark green and pointed and filled with large peas of superior quality. We recommend this variety highly. See prices on next page.

**World's Record Peas**

This variety has been superseded by Alderman. See above.

Pastinake (Ger.)

PARSNIPS

Pastinaca (It.)

An ounce will sow 150 feet of row. 2½ to 3 lbs. per acre.

Note: Parsnip seed is also a very short item throughout the country this year. In spite of our own short crop, we expect to be able to supply our customers with seed of strong germination, grown as usual from carefully selected roots on our farm.

Harris' Model

The Whitest Parsnips

Our customers find this to be the best variety that they can grow.

These are smooth, snow white, hollow crown parsnips, with a minimum of side roots or prongs. They are of good length, but not too long and their smoothness is quite remarkable, giving the roots a very attractive appearance so that they usually sell for top prices.

There is no better parsnip than "Harris' Model." Seed of our own growing from carefully selected transplanted roots.

Oz. 20c; ¼ lb. 55c; lb. \$1.75; 10 lbs. \$16.50; 100 lbs. \$155.00.

Long Hollow Crown

Better than most stocks. Long smooth roots, not as uniform or white as Model.

Oz. 15c; ¼ lb. 45c; lb. \$1.40; 10 lbs. \$13.00; 100 lbs. \$120.00.

Harris' Model Parsnips
Selecting Seed Roots on our Farm.

Pfeffer (Ger.)

PEPPERS

Peperoni (It.)

*An ounce of seed will produce about 1000 plants.***Harris' Northern Grown Pepper Seed**

If you want to make peppers a profitable crop here in the North, use Harris' Northern Grown Pepper Seed. We have specialized for over twenty years in growing peppers on our farm. Years ago we found out that the varieties which are usually grown in the long seasons and warmer climates farther south did not ripen enough fruit to make peppers a profitable crop in the North. So we developed a number of *early, heavy bearing varieties*, which are suited to our conditions and will produce an abundance of ripe fruit wherever the seasons are short.

**Harris' Wonder Peppers**

*Grown by Vernon A. Doty and his son (above)
of West Springfield, Mass.*

A customer writes:

"Have been using your seeds for a number of years and am very well pleased with them. I never had much success with peppers until we used your seeds."

Thomas D. Erwin, Schnecksville, Penna. Feb. 10, 1941.

Harris' Wonder***Now better than ever!***

Without sacrificing any of the earliness or heavy yields which have made this pepper the outstanding variety for the North, we have improved the size and uniformly fine shape by pure line selection. Our 1941 seed crop was even more uniform and prolific than ever before.

Harris' Wonder is a very smooth, thick fleshed California Wonder type which will give you not only enormous crops of green peppers but an abundance of ripe fruit before frost.

The peppers are large, chunky and beautiful dark green turning to rich red when ripe. They are very thick meated and the quality is excellent. A level bushel weighs over 30 lbs.

Growers have been most enthusiastic in its praise and the demand is constantly increasing. Grow some this year, we know you will like it.

See prices on next page.

HARRIS' PEPPER PLANTS

We specialize in growing fine, strong, well hardened, true to name pepper plants. We are large growers of plants to order, either seedlings or transplanted plants. See page 34.

Harris' Early Giant—The Earliest Large Pepper

Harris' Early Giant which we introduced a number of years ago is unquestionably recognized as a standard large early variety and gardeners in the North find it very profitable to grow.

It is a most dependable cropper producing an abundance of large peppers which are often 4½ in. long and 4 in. across and ripen only a week later than Harris' Earliest, the earliest pepper grown. To be sure of the true stock, get your Harris' Early Giant from us. *Seed of our own growing.* See prices on next page.

Harris' Improved Squash Pepper—Very Early and Heavy Yields

This pepper replaces the old type known as Squash, Cheese, Sunnybrook, etc.

It is so early and prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen. This early character and high yield make it a profitable kind to grow even here in the north. The fruit is the true "Squash" shape, with very thick mild, sweet flesh. These peppers are also known as "Pimientos" and are used for canning whole in some sections. *Seed of our own growing.* See prices on next page.

Hot Portugal—Large and Hot

If you want lots of large, long *hot* peppers, grow this kind. The fruit is long, pointed and quite smooth for a pepper of this type. They normally average six inches or over in length and are borne profusely on the sturdy plant. This pepper is bright red when ripe and in addition to its large size, is just as hot as the old Giant Cayenne. *Seed of our own growing.* See prices on next page.

Harris' King of the North

Extremely Large, Early and Prolific

Since we introduced this variety in 1934, it has earned a reputation of producing greater yields of large peppers here in the North than any variety grown.

The plants are medium size, branching and literally covered with the immense fruit. The size and shape of the peppers is well shown in the photograph to the right.

The flesh is firm, mild and sweet. If you have not done so we urge you to try these peppers this year. *Seed of our own growing.* See prices below.

Harris' "King of the North" Peppers

California Wonder

Large Fruit—Heavy Yields

Ours is a remarkably superior stock of this fine pepper, which is so widely grown by market gardeners in all sections. The plants are of strong sturdy character and very prolific, bearing large crops of fine large peppers. The peppers are of the true California Wonder type, smooth and heavy, having very thick flesh. We are sure you will like this stock. See prices below.

NOTE: Half ounces of pepper seed supplied at 1/2 the ounce price.

Radies (Ger.)

RADISH

Ravanelli (It.)

¼ lb. of seed will sow about 300 ft. of row.

NOTE: Every package of Harris Seeds is marked with the germination test. To growers who are interested we will be glad to furnish germination figures of our radish seed before they buy their seed.

Early Scarlet Globe

Long Island Strain

Because of the popularity of this excellent radish among the critical market growers on Long Island, we have called this fine stock of radish our "Long Island strain."

The bulbs of this medium topped strain are of a brilliant scarlet color and are firm and solid. In general the shape is more rounded than Cavalier. (See photo to the left.)

We recommend this strain as a particularly fine stock for outdoors as well as for greenhouses and frame growing where Early Scarlet Globe has been used. See prices below.

Cavalier

Short Top Scarlet Globe

The short tops, brilliant deep scarlet color, beautiful shape and extreme uniformity, and ability to stand a long time make this the best forcing type we have ever seen. These radishes are firm and solid, of the true olive shape and unusually uniform for type. It is often possible to pull practically 100% of number one radishes. It is also especially good on muck soils.

Leading growers tell us that these radishes sell for the best prices even when the market is slow.

See prices below. *Crop short.*

Be sure your Name and Address is on the Order Sheet.

Early Scarlet Globe
Long Island Strain

Icicle Radish (White)

Short-Topped Strain — Also Called Pearl Forcing

This is an ideal stock of Icicle Radish, both for forcing and outdoors and it can also be grown successfully on muck. It is so much superior to ordinary stocks of Icicle that there is no comparison. The radishes are uniformly smooth and clear white. The tops do not grow too long in the greenhouses or frames, but are long enough for bunching when grown outdoors.

Due to the war situation, seed of the true short-topped strain of Icicle radish is very difficult to obtain. We have had a crop of our regular Dutch stock grown and are proud to offer new seed of this outstanding strain. See prices on next page.

25 lbs. or more of any one variety will be supplied at the 100 lb. rate.

	¼ lb.	lb.	10 lb.	100 lb.

Similar to above but with long oval roots, often 8 to 9 in. long by 1½ in. in diameter. A very even stock.			

Rhabarber (Ger.)

RHUBARB or PIE PLANT

Rabarbaro (It.)

Myatt's Linnaeus. Early large stalks. This is a better strain of the common rhubarb so widely grown. 1 oz. of seed will sow about 100 ft. of row. ¼ lb. 60c; lb. \$2.00; 10 lb. \$19.00.

MacDonald Rhubarb Roots

We have an exceptionally fine lot of roots of the famous MacDonald Rhubarb. This rhubarb is the most distinct improvement made in rhubarb in many years and is conceded to be the best rhubarb ever produced.

The plant is vigorous and strong, producing large tender stalks which are deep crimson in color. They make a very attractive bunch and when cooked the sauce is a beautiful deep pink and of excellent flavor. Market growers who have been fortunate enough to get these roots in the past find this rhubarb sells readily at the highest prices.

We have not succeeded in producing this variety from seed.

Roots only—Strong divisions. 12 for \$2.50 Transportation paid. Not paid, 100, \$10.00; 1000, \$85.00. See also page 35.

Fordhook Giant Swiss Chard
The best variety for market.

Kuerbiss (Ger.)

WINTER SQUASH

Zucca (It.)

 $\frac{1}{4}$ lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

Harris' Blue Hubbard Squash

Photo taken in our Seed Crop.

Blue Hubbard

Harris' Famous Selected Strain

This is the popular large, rugged strain that produces big yields that bring top prices. It is the result of years of careful breeding and is considered to be the finest, purest stock grown.

Harris' Blue Hubbard can be relied on to produce immense yields of large true type squash. The seed we sell is all of our own growing and cannot be obtained elsewhere.

Although this was originally strictly a New England variety, the fine quality, enormous yields and excellent keeping quality have made this a most valuable kind for all markets.

See prices below.

"I bought some squash seed from you and had a fine piece of squash. We had one that weighed a good 60 lbs. and it won a special ribbon at the Grange Fair. We are very pleased with your seeds."

*Manuel M. Costa, Jr., S. Dartmouth, Mass.
Jan. 22, 1941.*

Quality —The richest small market Squash

Quality squash cannot be excelled to meet the ever increasing demand for a small to medium size squash of superior quality at roadside stands and markets.

The squash are dark olive green in color, 7 to 9 inches in diameter and of an attractive heart shape. The flesh is firm, thick and of the finest quality, being dry and sweet. Once they try it customers always come back for more of this kind.

It is our candid opinion that if you do not grow this kind you are missing a good thing.

Seed of our own growing. See prices below.

Warren Squash—Improved Essex Hybrid (New England Strain)

This fine old New England squash has become popular in many sections which formerly would not use "orange or red" squash. Our stock of this type has proved more than satisfactory.

The squash are early, medium size, very uniform in shape and heavily warted. We have bred this strain with a well formed but not too prominent "button." The flesh is fine grained, extra thick and the color a beautiful deep orange red. Seed of our own growing. See prices below.

WARREN. Improved Essex Hybrid. See above.....	.25	.75	2.50	22.25

SUMMER SQUASH

¼ lb. of seed will plant about 100 hills; 5 to 6 lbs. of seed per acre.

Yankee Hybrid—New

Early and Prolific

Developed by Dr. Lawrence C. Curtis of the Connecticut State College, this new Hybrid Straightneck Summer Squash is without equal for the production of early fruit. On our farm *both this year and last*, it was not only several days earlier than the next best variety but the first picking averaged more than twice as many marketable fruit, and the total yield was greater.

The squash are of the finest type, extremely uniform and with straight thick necks. The skin is slightly roughened and of a glowing waxy yellow color that makes them very attractive. There is no green color even when very young.

We offer only first generation Hybrid seed grown directly from pure line inbreds. This is a difficult process but is essential to get the maximum earliness, vigor and uniformity. See prices below.

Yankee Hybrid Squash

Harris' Improved Cocozelle—A 1942 Harris Introduction

We are proud to offer for the first time this new long, slender, straight type of Cocozelle which critical squash growers have long been looking for.

Developed and grown entirely by us on our own farm, this new strain will produce longer, more slender and more uniform fruits than the regular Italian Vegetable Marrow or Cocozelle, and makes a very fancy pack. *The squash are very even throughout the length* and carry the desired dark green base color with stripes of lighter green. The vines are the true dwarf type and very prolific. Try this new kind. See prices below.

Early Yellow Prolific

A New Summer Squash of Great Merit

This is now definitely established as one of the finest and most popular varieties. The fruit is not as large as the Giant Straightneck varieties, but they are borne in great profusion on the dwarf vines. These squash are very uniform for shape and size and are remarkable for their smooth skin and clear bright yellow color, having no trace of green even when very young.

We grew a fine crop of seed on our own farm this year and can assure our customers that no better stock of this variety can be obtained. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
Early Giant Crookneck	\$.15	\$.35	\$1.10	\$10.00
<small>Larger than the old Bush Crookneck and equally early. True strain.</small>				
EARLY YELLOW PROLIFIC. (New) See above	.20	.55	1.75	15.00
GIANT SUMMER STRAIGHTNECK. Bright Yellow	.15	.40	1.25	11.50
<small>This is our original strain of light yellow Straightneck which has been so popular among gardeners because of the very large percent of straight fruit, with thick meaty necks of the desired type. Some of the young fruits show a pale green color which gives them an attractive tender appearance. Growers find that this is the most uniform strain they can buy.</small>				
GIANT SUMMER STRAIGHTNECK. Butter Yellow	.15	.40	1.25	11.50
<small>Without any trace of green even when young, this popular strain fills the demand for a larger summer squash of clear butter yellow color. The fruits are smooth, bright and attractive. The vines are large and prolific.</small>				
HARRIS' IMPROVED COCOZELLE. (New) See above	.25	.70	2.25
ITALIAN VEGETABLE MARROW. (Cocozelle)	.15	.45	1.50	12.50
<small>This is the same fine stock which we have sold for years. Produces mottled dark green fruit of good length. Bush vines.</small>				
MAMMOTH WHITE BUSH SCALLOP. Also called "Cymling"	.15	.35	1.10	10.00
<small>The popular type, producing large yields of thick creamy white, well scalloped fruit. Bush vines.</small>				
YANKEE HYBRID. Remarkable New Early Straightneck. See above	.50	1.50	5.00
DARK GREEN ZUCCHINI. Special Long Strain	.15	.45	1.50	12.50
<small>This is a very superior strain with uniformly long dark green fruit, entirely without light grey fruit or light stripes. The young fruits are long and dark green. Exactly what is wanted.</small>				

Spinat (Ger.)

SPINACH

Spinace (It.)

Sow about 12 to 20 lbs. of seed per acre in rows.

Spinach Seed for 1942

Again this year there is a very distinct shortage of spinach seed. With all imports still cut off and practically no hold over, it has been necessary to depend on American grown seed. Unfortunately, although a large acreage was planted for seed, the crops were not good because of weather conditions.

We have seed of the varieties listed below which we can supply to our customers in reasonable amounts as long as the supply lasts.

We suggest that spinach growers plan their acreage carefully and place their orders as early as possible. We also think it good practice to try sowing seed a little thinner, and give it better care.

Be sure to treat your spinach seed with Red Copper Oxide (Cuprocid) before sowing. See page 48.

	lb.	10 lb.	25 lb.	50 lb.
BLIGHT RESISTANT SAVOY-LEAF. For Fall Crop	\$.75	\$ 7.00	\$ 16.75	\$ 32.50
We have an exceptionally fine stock of this variety. It is the true Virginia strain which is practically 100% resistant to blight and can be depended on to produce large crops of fine dark well crumpled spinach in the fall where other varieties blight and fall entirely.				
Blight Resistant Savoy does not stand as well as most other kinds in the spring, although our strain will stand three to four days longer than most.				
KING OF DENMARK. Longest Standing75	7.00	16.75	32.50
This spinach will stand longer than any other kind. The leaves are very dark green, quite thick and have small stems. On this account and because of the heavy yield this is one of the best varieties for canning. True stock.				
LONGSTANDING BLOOMSDALE. (Savoy)	(Sold out)			
NEW ZEALAND. Not a true Spinach. Valuable for Summer	1.50			
OLD DOMINION. For Fall Crop75	7.00	16.75	32.50
Very popular for spring sowing in places where blight affects spinach and also for early fall sowing as it is blight resistant and will stand longer without going to seed than Blight Resistant Savoy. The leaves are large, dark green, well blistered or "Savoyed" producing large crops which stand up well when shipped.				
SPECIAL SUMMER SAVOY. Best Longstanding Bloomsdale85	7.80	18.75
We have an exceptionally well bred strain. Large deep green, well crumpled leaves which produce enormous crops and stand a long time without bolting to seed. We recommend this stock.				
VIKING. (New) Large Leaved—Long Standing	(Crop failed)			

Tomate (Ger.)

TOMATOES

Pomo d'oro (It.)

An ounce of seed will produce about 2000 plants.

Harris' New York State Certified Tomato Seed

For seven successive years we have offered New York State Certified Tomato seed of our own growing. This seed must meet the highest standard of purity and freedom from disease.

Most of the tomato seed sold today is a by-product from fruit which has been processed in canning factories for the juice. Our Certified Tomato Seed is all grown on our own farms for seed only. Our seed crops are grown 100% from hot water treated stock seed and the seed is all saved by the fermentation process; reducing seed borne diseases such as early blight to a minimum.

Pan American Tomatoes

A typical basket from our seed field.

Pan American

A valuable new Marglobe type.

Developed by the United States Department of Agriculture as a Marglobe type with complete resistance to fusarium wilt, this fine new variety proved highly promising this past year. The fruit carry the fine deep globe shape of Marglobe, but are of larger size and so very uniform that we found practically no small tomatoes on the vines even late in the season. They are of fine quality, bright scarlet in color and ripen evenly to the stem. The flesh is solid, meaty and exceptionally firm.

Pan American is a main crop variety, ripening with us at about the same season as Marglobe and Rutgers. The large robust plants carry enormous yields of fine fruit. Growers of tomatoes for market and green pack will be delighted with the large size and fine shape of Pan American. Try some this year.

N. Y. State Certified Seed of our own growing. See prices on page 33.

Victor

The New Extra Early Tomato

Developed by Dr. Yeager at Michigan State College and introduced only last year, this new tomato has been found to be a real money maker for the growers. At the time when the old extra early varieties have but one or two ripe fruits, Victor has large clusters of beautiful tomatoes ripening all at once. With Victor you can market an abundance of fine smooth first class tomatoes earlier even than you could the old fashioned kinds and get top prices.

The tomatoes are of good size (the average was over $4\frac{1}{2}$ oz. on our farm), smooth and solid. Having a characteristic light color when green, they turn quickly to a brilliant scarlet color all over. *There are no green spots on Victor.*

The vine is a sturdy determinate type, that can be planted close together (2 x 3 ft. is recommended) and thus have more early fruit per acre. If you want extra early tomatoes, be sure to grow Victor.

N. Y. State Certified Seed of our own growing. See prices on page 33.

New Victor Tomatoes

A single cluster in our Seed Field.

Rutgers Tomato—Harris' Northern Grown Strain

Very few varieties have attained such universal popularity in so short a time as has the Rutgers. Since its introduction a few years ago by Prof. Schermerhorn of the New Jersey Agricultural Experiment Station, it has taken a leading place both as a canning and a market kind.

The outstanding features of the Rutgers are the large size and solid structure of the fruit, deep globe shape, fine flavor and deep red color all over together with a heavy set of fruit which makes for high yield. It is one of the most prolific varieties.

Although this is a main crop tomato we have selected it for earliness, producing a strain which is only a little later than Scarlet Topper, without losing any of its other fine characters. The vines are strong and sturdy with plenty of leaves to prevent the fruit being scalded by the sun.

N. Y. State Certified Seed of our own growing. See prices on page 33.

Marglobe Tomato—Blight Resistant

The fruit is large, globe shaped, perfectly smooth, deep red, very solid and firm. This is also a standard variety for green pack, as it grows with very little stem crack and ripens well in storage. The vines are vigorous and healthy and do not blight, remaining green until frost, so the late fruit is as good as the first to ripen.

We have grown this variety on our own farm since it was first released by the U. S. Department of Agriculture a number of years ago and have made careful selections each year to improve the yield, uniformity of color, size and shape of fruit.

N. Y. State Certified Seed of our own growing. See prices on page 33.

Pritchard's Scarlet Topper Also Called "Pritchard"

Because of its fine quality and beautiful appearance, this tomato has become a very popular market variety. Starting with stock seed sent us by the United States Department of Agriculture, we have been growing and selecting the seed here in the North in order to maintain the size, vigor and earliness of this variety.

This is a very heavy bearer. The fruit is medium early, ripening right after Bonny Best. The flesh is very solid with few seed cavities and a fine red color all through. It is quite free from cracking. The quality is extra fine, being mild and without acidity.

The plants are robust but not of rank growth.

N. Y. State Certified Seed of our own growing. See prices on page 33.

**Pritchard's
Scarlet
Topper**

TOMATOES continued on next page.

TOMATOES—Continued

John Baer—Improved Strain (The Best Tomato in Its Class)

This is the **Geneva** strain of John Baer tomato and will produce larger fruit and more tons of fine tomatoes to the acre than any strain we have ever seen.

The fruit is unusually large for this variety. It is very smooth and deep red throughout, coloring right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes, and can recommend it most highly both for market and canning.

N. Y. State Certified Seed of our own growing. See prices on next page.

Stokesdale—N. Y. Certified Seed

Stokesdale has become a variety of major importance, especially as a canning crop and we are pleased to offer again this year N. Y. State Certified seed which was grown on our own farm. It has fully met the strict requirements of the inspectors for N. Y. State Certification.

Stokesdale is a medium size deep globe tomato, very solid, of fine quality and very prolific. The fruit is of good scarlet color, coloring well all over. In season it is medium early ripening about with Bonny Best. Because of its good quality and very heavy yield, this tomato has an important place for market, shipping and canning. Grow some this year.

N. Y. State Certified Seed of our own growing. See prices on next page.

Comet Tomato

N. Y. Certified—For Greenhouse and Trellis Growing

Our stock is used regularly by some of the largest and best growers of greenhouse and trellis tomatoes, where a medium size fruit is wanted. We are pleased to offer **N. Y. State Certified Seed** of this fine strain of **Comet Tomato**. The seed is saved only from the best fruit on trellis grown plants and has been found superior for both greenhouse use and growing outside on supports.

Pkt. 20c; ½ oz. 50c; ½ oz. \$1.65; oz. \$3.00; ¼ lb. \$10.00.

Comet Tomatoes

Note the heavy set of fine fruit.

Use Starter Solution in Transplanting Tomatoes

Experiments at the New York State Agriculture Experiment Station at Geneva prove that the use of Starter Solutions when transplanting tomatoes not only materially increases the total crop but *increases the tonnage of early fruit*. See "Take Hold" on page 48.

Small Fruited Tomatoes

Popular to use in pickles, salads and preserves.

Varieties: **Red Cherry, Red Pear, Red Plum, Red Current, Yellow Cherry, Yellow Pear, Yellow Plum, and Ground Cherry (Husk)**. Price: Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50. Any four Pkts. 25c. Any four ½ oz. \$1.00.

	Oz.	¼ lb.	lb.
BONNY BEST. Harris' Special Strain. (N.Y. Certified Seed) . . . 5 lbs. \$20.00	\$.50	\$1.35	\$4.50
We know of no finer strain. Grown on our own farm from our own pedigree stock seed. Produces smooth round perfect fruit of finest color.			
BREAK O'DAY. (N.Y. Certified Seed)50	1.50	5.00
The fruit is very early, globe shaped, smooth and solid. This tomato is valuable where plants are staked and early fruit of high quality is required.			
COMET. Forcing Tomato. (N.Y. Certified Seed) See prices above			
Dwarf Champion50	1.30	4.25
Early, pink, medium size, dwarf stocky plant.			
Dwarf Stone50	1.35	4.50
Plants like Dwarf Champion with fruit like Stone.			
EARLIANA. Harris' Extra Early Strain. (N.Y. Certified Seed)50	1.50	5.00
Our stock is famous for extremely early, extra smooth fine colored fruit, and no better strain can be obtained.			
EARLY DETROIT. The Best Early Pink Tomato50	1.30	4.25
A very fine pink variety with smooth, evenly colored fruit of good size.			
Golden Queen50	1.45	4.75
Large, smooth yellow fruit.			
GOLDEN GLOBE. (New)65	2.00	6.00
Deep orange yellow, true globe. Large thick meat and prolific. See general catalogue.			
HARRIS' EARLY STONE. (N.Y. Certified Seed) 5 lbs. \$18.50	.50	1.30	4.25
Produces large, solid deep red fruit, superb quality. Early selected strain, ripens nearly as early as Bonny Best and John Baer. Enormous cropper.			
ITALIAN RED PEAR. Pomo d'oro a Pero. (N.Y. Certified Seed) . . Pkt. 10c	.50	1.50	5.00
Three to four times as large as ordinary Red Pear. Clusters of 4 to 7 fruit with pleasant distinct flavor. Used largely for Tomato "paste" and canning "Italian Style."

Harris' Purple Top White Globe Turnips

Harris' Tomato Plants

We have a reputation for producing fine, sturdy, true to name tomato plants. They can be furnished either ready to set out in the open ground, or, if preferred, small plants which can be grown in frames for a few weeks before setting out.
See next page for prices and varieties.

TURNIPS

Weisse Rube (Ger.) Navone (It.)
It requires 1 to 1½ lbs. of seed per acre in drills, or 2 to 2½ lbs. broadcast.

Purple Top White Globe Special Strain

This stock of Purple Top White Globe turnip continues to produce the smoothest, handsomest turnips we have ever seen. The turnips are a snowy white with bright purple tops. It costs no more to grow these fine turnips, and their attractive appearance makes them sell much better. See prices below.

	¼ lb.	lb.	10 lb.
EARLY PURPLE TOP MILAN. The earliest purple top turnip, very fine. Flat.	\$.30	\$1.00	\$9.00
EARLY WHITE MILAN. The Earliest Turnip. Very early, flat white turnip.	.30	1.00	9.00
GOLDEN BALL. The Smoothest Yellow Turnip. Round, smooth yellow. Much the best to grow where a yellow turnip is wanted.	.30	.85	8.00
PURPLE TOP WHITE GLOBE. Special Strain. See above	.25	.75	7.00
SHOGOIN. The Best Foliage Variety. The best turnip for greens, very much superior to Seven Top. The turnips are white, flat and of fine quality. The tops are light green of good quality and grow in clusters.	.25	.80	7.50
Snowball. Pure white, round as a ball; early, with small tops.	.25	.75	7.00

Kohlrübe (Ger.) RUTA BAGAS or Swede Turnips Cavolo navone (It.) Macomber—Finest Quality—White Flesh

This is a ruta бага which should be grown more extensively. It is the finest quality we know, being exceptionally mild and sweet. The roots are nearly round, smooth, white with green tops. The flesh is creamy white and very fine grained. Growers with discriminating customers quickly work up a fine trade with this outstanding variety. See prices below.

	¼ lb.	lb.	10 lb.
MACOMBER. See above	\$.60	\$2.00	\$19.00
IMPROVED LONG ISLAND. Purple-top. A superior strain of ruta бага. The roots are large globe shape, smooth and without too much neck. The flesh is yellow and of fine quality. Heavy yielder.	.30	1.00	9.00
EARLY YELLOW PURPLE TOP. Buck's County Strain. Purple top, matures about 2 weeks earlier than L. I. Improved. Roots are uniform, very smooth and somewhat flattened. Flesh light yellow, fine grained and sweet.	.35	1.10	10.00

VEGETABLE PLANTS AND ROOTS

Orders for plants will be entered at any time. The plants will be sent as near specific dates as possible if so ordered, otherwise they will be sent when ready or when it is time to set them out.

For those who use vegetable plants in large quantities if ordered before Feb. 15th, we can grow to your order at special prices. Write for quotations on your requirements.

PLEASE NOTE: Our plants are expertly and carefully packed so that they will reach you in good condition, but if they are delayed on the road or for any other reason, they arrive in poor shape, let us know at once and we will replace them. We cannot be responsible for the plants living after they are planted as this depends on how they are planted and the soil and weather conditions over which we have no control.

Except where noted, the plants are sent at the expense of the purchaser. If plants are wanted by parcel post an extra charge is made for postage as follows: To places in the 2nd zone (150 miles) 1c per lb., 3rd zone 2c per lb., 4th zone 4c per lb., 5th zone 6c per lb.

For prices in quantities less than listed here see our general catalogue.

	100	1000
COLUMBIAN. (Purple)	\$3.25	\$22.50
This is one of the most profitable kinds to grow.		
INDIAN SUMMER. (Red) Fall Bearing	4.00	30.00
This berry produces a second crop in early fall and is valuable for this reason.		
LATHAM. (Red) Mosaic resistant.	3.25	22.50
One of the best red raspberries and a standard commercial sort.		
NEWBURGH. (Red) Mosaic resistant.	3.25	22.50
Berries are large, firm, do not crumble and of superb quality.		
SHUTTLEWORTH. (Black) Mosaic resistant.	3.50	25.00
Large black berries of superior quality.		
SODUS. (Purple)	3.75	27.50
This new purple has the largest fruit of any raspberry we know. Vigorous and hardy.		
TAYLOR. (New) (Red)	3.50	25.00
An outstanding new kind.		

"It may interest you to know I planted about 1000 of your cauliflower for late last year and cut a head from every stalk. The first time I have been able to do this in 30 years of gardening."

Raymond Everhart, Cedar Rapids, Iowa. April 11, 1941.

Blackberries

These plants are "Extra Selected" and greatly superior to most plants sold. Weight per 100-20 lbs., per 1000-120 lbs.

	NOT PREPAID	
	100	1000
BLOWERS	\$3.50	\$25.00
Delicious fruit ripening over a long period of time, which produces very large yields.		
ELDORADO	3.50	25.00
High quality and very productive. The leading commercial blackberry.		

Grapes

The varieties here have been selected as the best in their respective groups and will prove most satisfactory. We sell only strong native grown, true to name and acclimated vines. Weight per 10-8 lbs., per 100-60 lbs.

	NOT PREPAID	
	10	100
CACO. (Red) 2 yr	\$2.00	\$18.00
A cross between Concord and Catawba. Large berries and early.		
CONCORD. (Black) 2 yr	1.00	8.00
The old standard black grape.		
FREDONIA. (Black) 2 yr	2.00	18.00
Originated and tested by the New York Agricultural Experimental Station. Very early, large, handsome and of excellent quality. Vigorous and productive.		
NIAGARA. (White) 2 yr	1.45	12.00
The standard white grape.		
PORTLAND. (White) 2 yr	2.00	18.00
The earliest white grape, and one of the finest for quality, vigor and yield.		
VAN BUREN. (New) (Black) Strong 1 yr. vines	8.00
The earliest black grape. Ripens three weeks earlier than Concord and makes fine bunches of the best quality berries. We highly recommend this new variety.		
WORDEN. (Black) 2 yr	1.45	12.00
Earlier than Concord. Large black berries of fine quality.		

Certified Seed Potatoes

About Shipping. The potatoes are shipped in sacks holding 100 pounds. We can usually ship safely by the 25th of March, but not before, except to the Southern States.

Prices Subject to Change. The prices of potatoes are subject to market changes and to our acceptance on receipt of order. We will be pleased to quote lowest prices by letter. Please state the kinds and amounts you are interested in.

Note: We now ship potatoes in sacks containing 100 pounds.

(Bu. 60 lbs., Sack 100 lbs.)

	NOT PREPAID	
	Single Bu.	Sack 100lb.
GOLDEN RURAL or RURAL RUSSET. Certified Seed	\$2.75	\$4.15
One of the very best potatoes, almost blight-proof, vines very strong and vigorous and produce immense yields of handsome round, white potatoes. We think larger crops can be raised with this variety than any other kind.		
GREEN MOUNTAIN. Certified Seed	2.75	4.15
Medium early white potato of finest quality. Does best and yields heaviest crops on lighter soils. Excellent for New York and New England.		
IRISH COBBLER. Early. Certified Seed	2.75	4.15
The most popular round white early potato.		
CHIPPEWA. Early. Certified Seed	3.10	4.60
A few days later than Cobbler, but yields more No. 1 tubers. A white potato of fine shape with shallow eyes. Popular on muck and upland.		

HARRIS' FARM AND FIELD SEEDS

NOTE. The prices here quoted are for cash with order and for seeds delivered f.o.b. Coldwater, N. Y. Purchaser pays transportation on all farm, field and grass seed. We do not charge for bags.

All prices of the following farm and field and grass seeds quoted on these pages are subject to change without notice and to our stocks being unsold. *Let us know your requirements and we will be pleased to quote you lowest prices at any time.*

We handle farm and field seeds of the highest quality only. See our General Catalogue for full descriptions.

Cornell Special Pasture Mixture

Formerly called *Cornell Pasture Mixture No. 1*

This Cornell University formula has proved to be the best for permanent pastures on good land that has been adequately fertilized. See full description of this and other pasture mixtures in our General Catalogue. Sow 25 lbs. per acre. **100 lbs. \$30.00. Not Prepaid.**

For other Cornell Mixtures for Pasture and Hay see our General Catalogue.

Harris' SUPERFINE Lawn Grass Seed

A mixture composed of only the purest seed of grasses best suited for lawns. The finest all purpose lawn grass. Now contains Wild White Clover. **Superfine Mixture. 10 lbs. \$5.10; 25 lbs. \$11.75; 50 lbs. \$22.50; 100 lbs. \$43.00. Transportation paid.**

Grass Seed For Shady Places

A mixture of the finest varieties for growing in shady spots.

Shady Lawn Mixture. 10 lbs. \$6.50; 25 lbs. \$14.75; 50 lbs. \$28.50; Transportation paid.

See our General Catalogue for complete descriptions of these and other fine lawn grass mixtures.

HARRIS' SELECTED FLOWER SEEDS

Harris-Grown Flower Seeds *Especially For Northern States*

Practically all our flower seed is actually grown *for you*, the cut-flower and plant grower of the northern states. Every important variety is either grown on our own farm in New York State, or grown on contract for us—*not* picked up on the open market.

Don't hesitate to write us,—possibly our experiences can be of help to you. Better yet, come to see us.

To Florists of established credit, and those who furnish us with satisfactory references we allow the following *time payment except on field and grass seed*:

Bills for seeds, plants, etc. shipped after December 1st are due and payable net June 1st.

Bills for goods shipped after June 1st are due net December 1st.

Crego Shell-Pink Aster

HARRIS' ASTERS

Harris' Aster Seed at Lower Prices

Unbelievable as it may seem, our Aster seed is actually being offered at lower prices than last year, and it is of the same high quality, new-crop seed. We can afford to do this because of our steady increase in sales.

New Wilt-Resistant Varieties

You, as a commercial grower cannot afford to gamble unnecessarily. Sow only "Wilt-Resistant Asters" and eliminate the risk of "wilt" or "stem rot." Although they are not 100% wilt-proof, they are so resistant to wilt they will thrive in infected soil where others would not grow.

American Branching Asters

The leading mid-season variety for all purposes.

W1604—Azure Blue	} Lg. Pkt. ¼ Oz. Oz. \$.20 \$.45 \$1.40
W1606—Crimson	
W1602—Flesh Pink	
W1607—Peach Blossom	
W1605—Purple	
W1603—Rose	
W1601—White	

W1600—Variety Mixture. An excellent mixture especially made up by us, using fresh, new crop seed of all the varieties above in the proper proportions for a good balance of color. Lg. Pkt. 15c; ¼ Oz. 40c; Oz. \$1.20.

New Early Giant Asters

A much earlier, and wilt-resistant strain of the immense California Giant Asters.

W1824—Light Blue	} Lg. Pkt. ¼ Oz. Oz. \$.30 \$.75 \$2.50
W1823—Peach Blossom	
W1822—Rose Marie. Bright rose	

Peerless Pink Aster

W1066—This is still the most profitable light pink Aster. Large double flowers on vigorous branching plants. Lg. Pkt. 20c; ¼ Oz. 45c; Oz. \$1.40.

Crego Asters

Ostrich Feather Asters. An unusual range of colors selected from the best of the fluffy or Crego type.

W1402—Shell Pink	} Lg. Pkt. ¼ Oz. Oz. \$.20 \$.45 \$1.40
W1404—Azure Blue	
W1405—Purple	
W1403—Deep Rose	
W1401—White	

W1406—Enchantress Pink

W1400—Variety Mixture. Our own specially made mixture of fresh seed of the above kinds. Lg. Pkt. 15c; ¼ Oz. 40c; Oz. \$1.20.

Royal Asters

Same form as American Branching but slightly earlier.

W1301—White	} Lg. Pkt. ¼ Oz. Oz. \$.20 \$.45 \$1.40
W1303—Rose	
W1304—Lavender	
W1305—Purple	

W1300—Variety Mixture. A properly proportioned mixture of our own. Lg. Pkt. 15c; ¼ Oz. 40c; Oz. \$1.20.

Heart of France Aster

W1078—The most popular "red" Aster and still a favorite for the gardens. There is no other Aster to take its place. Lg. Pkt. 30c; ¼ Oz. 70c; Oz. \$2.20.

HARRIS' ASTERS—Continued

Although the following Asters are not listed as "Wilt-Resistant" they are particularly good growers and should not be troubled by wilt unless grown in badly infected soil.

Harris' Early Dawn Asters

A new class of extra early Asters of our own growing. They bloom so early that, with us, they are not affected by the tarnish plant bug. We grow them from seed without transplanting. Many prefer them to Queen of the Market.

W1254—Lavender.....	Lg.		
W1253—Rose.....	Pkt.	¼ Oz.	Oz.
W1251—White.....		\$.20	\$.45 \$1.50
W1250—Variety Mixture.....		.15	.40 1.25

Sunshine Asters

W1010—New California Sunshine, Mixed Colors. A better mixture of tall growing Asters with large single flowers, many with quilled centers. This is an extra special mixture we make by using fresh, new crop seed. Lg. Pkt. 30c; ¼ Oz. 85c; Oz. \$3.00.

Lilliput Asters

W1100—Mixed Colors. A mixture of our own growing. Lg. Pkt. 30c; ¼ Oz. 85c.

W1000—Choice Mixture of Tall Varieties. Lg. Pkt. 15c; ¼ Oz. 30c; Oz. 90c; ¼ Lb. \$2.70.

California Giant Asters

A new strain of remarkable Asters on immense robust plants. The flowers have long twisted petals and are colossal in size.

W1815—Dark Purple.....	Lg.	
W1812—Deep Rose.....	Pkt.	¼ Oz. Oz.
W1814—Light Blue.....		\$.25 \$.60 \$2.00
W1813—Peach Blossom.....		
W1816—Shell Pink.....		
W1811—White.....		

W1810—Variety Mixture. A splendid well balanced mixture of our own making. Lg. Pkt. 20c; ¼ Oz. 55c; Oz. \$1.80.

New Daisy Asters

W1830—California Giant Single, Mixed Colors. Immense single flowers with long graceful petals. Plants are vigorous and are very resistant to disease. Lg. Pkt. 15c; ¼ Oz. 20c; Oz. 50c.

Harris' 8-Best Mixture

W1500—Our own special mixture made from equal quantities of the following eight best Wilt-Resistant Asters:

Enchantress Pink	Early Giant Light Blue
Peerless Pink	Early Giant Peach Blossom
Heart of France	Am. Branching Purple
Crego Deep Rose	Am. Branching White

Lg. Pkt. 15c; ¼ Oz. 35c; Oz. \$1.30; ¼ Lb. \$4.00.

Ageratum

This last summer we tried most all of the different American grown varieties and selected these three as the best.

	Lg. Pkt.	¼ Oz.	Oz.
W2012—Midget Blue. A new very dwarf only 4 to 5 inches tall with small mid-blue flowers ½ Oz. 80c	\$.35	\$1.40	\$5.00
W2013—Blue Bedder. A new dwarf, large-flowered variety that showed up especially well with us. We believe it to be the best dwarf variety. ½ Oz. 90c	.45	1.60	6.00
W2016—Blue Cap. A small, dark-flowered strain on 4-inch high compact plants. ½ Oz. 60c	.25	.90	3.00
W2017—Blue Perfection. A true blue of medium height, liked by many.	.15	.20	.50
W2015—Swanley Blue. (Tall.)	<i>Crop failed</i>		

Alyssum

	¼ Oz.	Oz.	¼ Lb.

Begonia

Semperflorens. Sowed in the summer for winter and spring combinations.

W2130—Mixed Colors. Lg. Pkt. 35c; ½ Oz. \$1.00.
W2131—Luminosa. Dark scarlet flowers, dark foliage. Lg. Pkt. \$1.00; ½ Oz. \$2.00.
W2132—Vernon. Blood red flowers, large dark leaves. Lg. Pkt. 50c; ½ Oz. \$1.35.
W2133—Lightning. Very large carmine-scarlet flowers, green foliage. Lg. Pkt. \$1.00; ½ Oz. \$2.00.
W2134—Prima Donna. Shaded light-rose or pink. Lg. Pkt. \$1.00; ½ Oz. \$2.00.

Candytuft

W2271—White	}	¼ Oz.	Oz.	¼ Lb.
W2272—Rose Cardinal		\$.15	\$.40	\$1.10
W2274—Flesh Pink				
W2276—Lavender				
W2270—Rainbow Mixture		.10	.30	.90
W2275—Giant Hyacinth-flowered		.20	.50	1.50

Carnation

Giant Double Chabaud

This has always been a good variety to sow for plant sales. Sowed indoors very early and grown cool the plants will find a ready sale.

Lg. Pkt. ¼ Oz. Oz.

W2290—Mixed Colors. An especially good strain of large flowers. \$.15 \$.45 \$1.40

Centaurea

Cyanus (Bachelor Button)

W2321—Double White	}	¼ Oz.	Oz.	¼ Lb.
W2322—Double Rose		\$.15	\$.40	\$1.20
W2324—Double Ruby				
W2320—Harris' Color Mixture		.15	.30	.90
W2332—Jubilee Gem (New) Dwarf		.20	.60	1.80
W2350—Gymnocarpa. Gray foliage		.15	.45	1.35

W2325—Double Blue, Florist's Strain. A very fine strain of the tall double, bright blue used by florists for cut-flowers. ¼ Oz. 15c; Oz. 35c; ¼ Lb. \$1.00.

Coleus

For the last few years we have been developing a new strain of large-leaved Coleus seed. We now have Coleus seed of our own growing which we are proud to introduce.

W2511—HARRIS' EXTRA FANCY MIXTURE. The leaves are uniformly large and in the brightest color combinations. The plants tend to stay low and not run up to flower until very late. We feel confident this is the best strain of seed you can possibly buy. Pkt. 25c; ¼ Oz. \$1.50; ½ Oz. \$5.00; ¾ Oz. \$9.50.

W2510—Rainbow Mixture. This formerly was the best strain we could procure and is still considered very good. ¼ Oz. 40c; ½ Oz. \$1.30; Oz. \$5.00.

Celosia

Feathered Cockscomb

	Lg. Pkt.	¼ Oz.	Oz.
W2370—Thompsoni Magnifica. The best tall in brilliant mixture	\$.15	\$.25	\$.85
W2376—Fire Feather	.45	1.50	
W2377—Golden Feather	.35	1.00	

Crested Cockscomb (*Cristata*)

W2380—Mixed Colors. .20 .45 1.50

Dahlia

Dwarf Dahlias are rapidly increasing in popularity both for plant sales and cut-flowers.

Lg. Pkt. ⅓ Oz. ¼ Oz.

W2605—VOSSBERG'S HYBRIDS.

Here is a new single variety that should appeal to you. Bred by a florist for florists. Contains the colors you want and keeps longer in water. Popular on the New York flower market. 3 ft. tall. . . . \$.30 \$.75 \$1.25

W2606—Unwin's Dwarf Hybrids. A very good mixture of many types .20 .30 .50

W2607—Extra Choice Large-Flowered. Cactus-flowered varieties.75 1.25

Gourds

	¼ Oz.	Oz.
W2981—Spoon	\$.15	\$.40
W2982—Orange	.10	.30
W2983—Egg	.10	.30
W2984—Bicolor	.15	.40
W2986—Warted	.15	.40
W2985—Small Sorts Mixed	¼ Lb.	85c .10 .25
W2989—Large Sorts Mixed	¼ Lb.	75c .10 .25

Gypsophila

W2992—Harris' Covent Garden. The largest flowered and decidedly the most satisfactory. Oz. 15c; ¼ Lb. 45c; Lb. \$1.45.

W2991—London Market. A taller growing strain preferred by many for longer stemmed cutting. Oz. 15c; ¼ Lb. 35c; Lb. \$1.15.

Larkspur

The finest Larkspur for outdoor cutting is probably produced by sowing seed outdoors in the fall. We consider these the six best for cutting.

Giant Imperial

W3248—Los Angeles Improved. Salmon rose

W3254—Blue Bell. Mid blue

W3255—Adorable. Lilac lavender

W3256—White King. Large white

W3258—Blue Spire. Deep violet blue

W3252—Carmine King. Rich, bright carmine

Any of the above colors: Lg. Pkt. 15c; ¼ Oz. 30c; Oz. 90c; ¼ Lb. \$2.50; Lb. \$9.50.

W3250—Variety Mixture. Our own mixture of the above named six best kinds. Lg. Pkt. 15c; ¼ Oz. 25c; Oz. 75c; ¼ Lb. \$2.00.

Lobelia

W3300—Crystal Palace Compacta. Pretty little blue flowered plants for edging or pots. Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00.

W3301—Cambridge Blue. Light green foliage, light blue flowers. ⅓ Oz. 50c; ¼ Oz. 75c.

W3302—Bedding Queen. Very dwarf, medium dark foliage, large deep blue flowers with white eye. ⅓ Oz. 45c; ¼ Oz. 65c.

Morning Glory

Lg. Pkt. ¼ Oz. Oz.

W3475—HEAVENLY BLUE. . . . \$.15 \$.35 \$1.00

W3477—SCARLETT O'HARA. The All-America Gold Medal winner for 1939. Immense deep scarlet.20 .45 1.50

W3474—PEARLY GATES. The new white-flowered All-America winner for 1942. The same growth and earliness as Heavenly Blue.45 1.35 4.00

W3478—Crimson Rambler. Free-flowering medium-sized, rapid climbing.25 .75

W3476—Moonflower (White).20 .50

W3480—Mixed Colors.10 .25

Cup Flower

W3664—NIEREMBERGIA Hippomania. One of the newer outstanding bedding plants. Bright lavender-blue flowers. 5 to 6 in. high. Lg. Pkt. 40c; ⅓ Oz. \$1.50

Nicotiana

Lg. Pkt. ¼ Oz. Oz.

W3671—Affinis, White. \$.15 \$.20 \$.50

W3670—Affinis, Mixed Colors.15 .20 .50

W3675—Suaveolens, Orange Blossom. A splendid new low-growing, white-flowered variety, excellent for plant trade. Pkt. 25c; ⅓ Oz. \$2.50; ¼ Oz. \$4.50.

Portulaca

Lg. Pkt. ¼ Oz. Oz.

W3870—DOUBLE, Mixed Colors. . . \$.25 \$.60 \$2.00

Marigolds

EARLY DWARF MARIGOLDS

	Lg. Pkt.	¼ Oz.	Oz.
W3415—Harmony Hybrids. New mixture of various shades and combinations all of Harmony type. \$.15	\$.35	\$1.00
W3414—Yellow Pygmy. Small yellow double flowers on very compact dwarf plants. Excellent for early potted plants. Very uniform.	.15	.40	1.20
W3422—Harmony. Still one of the most popular. Golden center with red guard petals.	.25	.75	
W3421—Little Giant. (<i>Tagetes signata</i> .) An improved strain. Small single yellow flowers and finely cut foliage.	.15	.45	1.50
W3411—Spotlight. Bright yellow quilled center surrounded by mahogany red petals. Very bright.	.15	.45	1.50
W3410—Double Dwarf French Mixed, Improved. Of the same earliness and type as Harmony in various shades and combinations.	.15	.30	1.00
W3416—Spry. Very early flowering double golden-yellow and red. Especially good for early pots.	.35	.90	3.00
W3417—Scarlet Glow. Double flowers all red and mahogany. Same growth as Harmony.	.30	.60	2.00
W3418—Royal Scot (Dwarf). Double flowers with petals striped gold and mahogany.	.15	.45	1.50

Yellow Pygmy

Medium Tall and Early

	Lg. Pkt.	¼ Oz.	Oz.
W3403—Viking. The earliest of all in this group. Medium-sized loose-petaled flowers in profusion. Mixed Colors.	\$.15	\$.45	\$1.50
W3412—Limelight. Very early, light yellow <i>Chrysanthemum</i> -flowered	.15	.45	1.50
W3409—Golden Glow (Odorless). Excellent for cutting.	.15	.40	1.20
W3428—Early Sunshine. 1939 Bronze Medal. Golden yellow <i>Chrysanthemum</i> -flowered.	.15	.45	1.50
W3413—Red and Gold Hybrids. Very popular for both plant sales and cutting.	.30	1.50	5.00

TALL MARIGOLDS

Carnation-flowered Marigolds

	Lg. Pkt.	¼ Oz.	Oz.
W3426—Yellow Supreme.	\$.15	\$.35	\$1.00
W3427—Guinea Gold.	.15	.35	1.00
W3423—Burpee Gold (Odorless).	.15	.35	1.00
W3424—Golden Supreme Mixture.	.10	.25	.75

Double African Marigolds

	Lg. Pkt.	¼ Oz.	Oz.
W3404—Orange All Double.	\$.20	\$.55	\$1.75
W3405—Lemon All Double.	.20	.55	1.75
W3400—Mixed Colors All Double.	.15	.45	1.50
W3407—Sunset Giants, Mixed Colors. Mammoth double flowers.	.15	.45	1.50

A New All-America Marigold

W3419—Melody. A double golden yellow of Harmony type. Uniformly 12 to 15 in. tall and early.
Lg. Pkt. 35c; ¼ Oz. 75c; Oz. \$2.50.

"I had your 3802 Paramount Ruffled Giant Petunias last year. They were the most beautiful Petunias I ever saw." Mrs. Alfred G. Reese, St. Johnsville, New York

Pansies

New Swiss Giant Pansies

- W3705—MAGNIFICENT MIXTURE.** By actual tests every year on our farm, this strain of mammoth-flowered Pansies has proved to be the best. The color range includes the dark browns and reds as well as the bright shades, and is the choice of Pansy critics. Lg. Pkt. 30c; ⅓ Oz. 85c; ¼ Oz. \$1.45; Oz. \$5.00; ¼ Lb. \$17.00; Lb. \$66.00.
- W3704—DWARF SWISS, Choice Mixture.** More dwarf compact plants with the same immense flowers as the Magnificent Mixture. Lg. Pkt. 40c; ⅓ Oz. 90c; ¼ Oz. \$1.55; Oz. \$5.50.
- W3738—BLUE SWISS.** A solid blue with dark blotch. Lg. Pkt. 40c; ⅓ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.50.
- W3739—RED SWISS.** Same type as the Blue, but a mahogany red color. Lg. Pkt. 40c; ⅓ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.50.
- W3737—CORONATION Gold.** A new Swiss Giant Pansy of pure yellow with no markings. Very compact plants which withstand summer heat. Lg. Pkt. 40c; ⅓ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.50.
- W3735—WHITE SWISS.** Larger pure white. White Pansy plants are in great demand. Lg. Pkt. 40c; ⅓ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.50.

Harris' Special Mixture

- W3700—**Here is a new mixture of very large-flowered Pansies, with slightly waved petals and in an unusually bright and pleasing range of colors, including many "pastel" shades. It is our finest low-priced mixture. Lg. Pkt. 25c; ⅓ Oz. 50c; ¼ Oz. 80c; Oz. \$2.80; ¼ Lb. \$9.50.
- W3703—MAPLE LEAF GIANTS, Mixed Colors.** The largest flowers of all Pansies. Blue and yellow shades predominating on long stems. Lg. Pkt. 40c; ⅓ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.00.
- W3702—ENGELMANN'S GIANT MIXTURE.** Mammoth flowers in bright, bold colors. ⅓ Oz. \$1.10; ¼ Oz. \$2.00; Oz. \$7.00.

Phlox

- Drummond Grandiflora (15 to 18 in. tall)**

|---------------------------|----------|-------|-------|--------|
| W3850—Mixed Colors | \$.25 | \$.40 | \$.60 | \$2.00 |

Harris Grown GIANT PETUNIAS

Giant Ruffled Petunias

*A Harris Specialty and
A Florists' Favorite*

W3802—PARAMOUNT GIANTS, Mixed Colors (Harris Grown). An extra fine strain of our own growing especially selected for florists' use. The immense deep-throated well ruffled flowers are on low-growing compact plants that do not run up tall during the summer. They start flowering when the plants are very small, making them exceptionally good for spring sales. The colors are selected for brightness and include a large percentage of red and white blotched. **500 seeds 65c; 1000 seeds \$1.00; $\frac{1}{8}$ Oz. \$2.25; $\frac{1}{2}$ Oz. \$3.75; $\frac{1}{16}$ Oz. \$6.75; $\frac{1}{8}$ Oz. \$10.00.**

W3808 — RUFFLED SALMON BEAUTY (Harris Grown). A giant bright salmon-pink. Immense well ruffled flowers with golden throat. An excellent florist's variety. Very similar to the new "Glamour." **500 seeds 45c; 1000 seeds 70c; $\frac{1}{8}$ Oz. \$1.35 $\frac{1}{2}$ Oz. \$2.25; $\frac{1}{16}$ Oz. \$4.00.**

W3813—THEODOSIA (Harris Grown). We know we have the best strain of this popular bright pink with golden center. Large and well fringed. **500 seeds 35c; 1000 seeds 60c; $\frac{1}{8}$ Oz. \$1.15; $\frac{1}{2}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50.**

W3803—FLORIST'S SUPREME STRAIN. (Harris Grown). Large ruffled flowers of the California Giant type in a new array of colors, including the beautiful salmon and pink shades found in no other strain of Giant Petunias, unusually good for florists. **500 seeds 40c; 1000 seeds 75c; $\frac{1}{8}$ Oz. \$1.25; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.00.**

Paramount Giant Petunia

Giant Waved Petunias

Ideal For Plant Sales

W3809—ROYALTY (Harris Grown). Here is a new Petunia that will make more customers for you. A bed or border of these beautiful big velvety flowers in their varying combinations of deep blue and white will attract everyone's attention. In 3-in. pots, grown cool, they are a "sell-out." **Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 95c; $\frac{1}{2}$ Oz. \$1.50; $\frac{1}{16}$ Oz. \$2.50; $\frac{1}{8}$ Oz. \$4.00.**

W3814 — GIANT SNOWSTORM (Harris Grown). Very large, waved, pure white flowers on low growing plants. A constant bloomer in the garden and a good seller as potted plants. **Lg. Pkt. 50c; $\frac{1}{8}$ Oz. \$2.00; $\frac{1}{2}$ Oz. \$2.75; $\frac{1}{16}$ Oz. \$5.00.**

W3816—HARRIS' PURPLE PRINCE. Our own growing, and not to be confused with any other "Purple Prince" offered. This is distinctly different. The largest flowered, deep, velvety violet-blue. Large open throats and waved petals. Very free flowering. **Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 65c; $\frac{1}{2}$ Oz. \$1.00; $\frac{1}{16}$ Oz. \$1.75; $\frac{1}{8}$ Oz. \$3.00.**

W3817—THE ART (Harris Grown). Also called "Columbia." An exceptionally free-flowering fringed Petunia in unusual color combinations of bright reds and white, mostly in blotches. Very effective. **500 seeds 50c; 1000 seeds 80c; $\frac{1}{8}$ Oz. \$1.50; $\frac{1}{2}$ Oz. \$2.50.**

Other Good Petunias

Especially for Plant Growers

W3806—DWARF RUFFLED GIANT. Mixed colors. Not our own growing. Very good large ruffled flowers on low growing plants. **$\frac{1}{2}$ Oz. \$1.50; $\frac{1}{16}$ Oz. \$2.25; $\frac{1}{8}$ Oz. \$3.75; $\frac{1}{4}$ Oz. \$6.50; $\frac{1}{2}$ Oz. \$12.00.**

W3807—DAINTY LADY. Dwarf plants with fringed creamy yellow flowers in abundance. **500 seeds 35c; 1000 seeds 60c; $\frac{1}{8}$ Oz. \$1.15; $\frac{1}{2}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$4.25.**

W3812—MARTHA WASHINGTON. A very dwarf compact plant covered with fringed blush-pink flowers veined wine-red. Very late flowering in some Northern sections. **500 seeds 25c; 1000 seeds 35c; $\frac{1}{8}$ Oz. 75c.**

Victorious All-Double 500 1000

	seeds	seeds	$\frac{1}{16}$ Oz.	$\frac{1}{8}$ Oz.
W3790—Mixed Colors	\$1.50	\$2.50	\$7.00	\$13.00
W3797—Madonna, White	1.75	3.00	7.50	14.00
W3794—Amaranth Red	1.75	3.00	7.50	14.00
W3793—Carmine King (World Beauty). The original all-double pink Petunia and still the best. Very dwarf and compact and true to color. 500 seeds \$1.75; 1000 seeds \$3.00; $\frac{1}{8}$ Oz. (about 5000 seeds) \$7.50.				

"I do not know how large you are able to grow the blooms of your Harris Paramount Ruffled Giants, but I have grown them to the size of $6\frac{1}{4}$ inches in diameter."

Thomas H. Doane, Providence, Rhode Island

Harris Grown BEDDING PETUNIAS

Single Low-growing BEDDING PETUNIAS All Harris Grown

This is the most popular class of Petunias for outdoor bedding and are the leaders for plant sales in pots and flats.

Petunias being one of our specialties, we make every possible effort to offer only the best strains of the most desirable colors, testing them carefully for growth and color.

In order to assure you of better and more dependable Petunias we increased our seed-growing acreage to include the very important four leading colors of low-growing single Petunias. This makes it possible for you to sell plants with full confidence you will be making pleased customers.

New White Petunia, Cream Star

A New White Petunia More Uniformly Compact and More Free-Flowering

W3826—CELESTIAL ROSE. The finest all-purpose bright pink. A more attractive shade and more compact growing than Rose of Heaven. A clear pink without the large white throat of Rosy Morn. This is the most compact and uniform growing strain.
Lg. Pkt. 25c; 1/8 Oz. 55c; 1/4 Oz. 85c; Oz. \$2.60.

W3827—HEAVENLY Blue, Improved. This is the light blue so much in demand for plants but generally very variable in color. This year we are finally able to produce a much improved strain. In the field, the color was 100% true clear, light-blue and the plants uniformly low and compact. We sincerely believe this is far superior to any other Heavenly Blue.
Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$1.25; Oz. \$3.50.

W3825—DARK PURPLE. A very much improved stock, more compact growing and a deep velvety dark blue-purple. As low growing as Celestial Rose.
Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 75c; Oz. \$2.60.

W3821—SNOWBALL. A new white, more uniform in growth and of the same compact habit as Celestial Rose. Most white Petunias offered are much taller.
Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 75c; Oz. \$2.60.

W3823—ROSY MORN (Harris Grown). An unusually good strain of the ever-popular white-throated pink for bedding, boxes, etc. The flowers were larger and the plants remained uniformly low growing even during the extremely hot weather.
Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 75c; Oz. \$2.60.

W3829—ELEANOR BLUE (Harris Grown). It has taken us four years to get this desirable mid-blue back into production. The color is a pleasing shade of deep lilac, different from the other mid-blues, and more desirable. The plants are semi-dwarf, but unusually uniform in height and color.
Lg. Pkt. 25c; 1/8 Oz. 55c; 1/4 Oz. 85c; Oz. \$2.60.

W3840—HARRIS' SPECIAL FOUR-COLOR MIXTURE. Here is an unusually fine mixture especially made up for particular buyers. We make this mixture from the same fresh, new-crop seed described above, using carefully balanced proportions of Celestial Rose Snowball, Dark Purple and Heavenly Blue.
Lg. Pkt. 20c; 1/8 Oz. 40c; 1/4 Oz. 65c; Oz. \$2.20.

NEW KING PETUNIAS

Single Tall-Growing Bedding Petunias

W3831—White King.....	Lg. Pkt.	1/4 Oz.	Oz.
W3832—Rose King Improved.....			
W3833—Crimson King.....			
W3834—Howard's Star.....			
W3835—Violet King.....			
W3830—Formula Mixture.....	\$.15	.35	1.00

"The Paramount Ruffled Giant Petunias that I received from you are the finest I ever saw. I always have good luck with your seeds." John L. Nichols, Bovina Center, N. Y.

W3844—CREAM STAR. We consider this the best white bedding Petunia ever introduced. The plants are uniformly compact and do not get "leggy." All summer they are a perfect mound of large creamy-white flowers. All of your customers will repeat on this one.
Lg. Pkt. 35c; 1/8 Oz. 65c; 1/4 Oz. \$1.00; Oz. \$3.50.

W3836—HARRIS' BLACK PRINCE. An improved strain of our own growing. A dwarf "Flaming Velvet" similar to "Velvet Ball." The color is the darkest red it is possible to imagine, while the plants are uniformly compact growing. We found it to be one of the best selling Petunias in the spring plant trade.
Lg. Pkt. 40c; 1/8 Oz. 90c; 1/4 Oz. \$1.50; 1/2 Oz. \$2.50.

W3842—FIRST LADY (Harris Grown). A new very beautiful clear salmon-pink on dwarf upright growing plants. Also called "Fair Lady." The most pleasing shade of pink ever seen in any Petunia, and sure to become the most popular. Seed still very scarce. 1000 seeds 55c; 1/4 Oz. \$1.25; 1/2 Oz. \$2.00; 1/2 Oz. \$3.50.

Other New Petunias

W3841—COCKATOO. A much improved reselected strain of this new attractive blue and white variety. Medium size flowers on slow, compact plants. Irregular white markings on violet-blue ground.
1/8 Oz. 45c; 1/4 Oz. 70c; 1/2 Oz. \$1.25.

W3822—SALMON SUPREME. The new true salmon bedding Petunia of our own growing. Gold Medal All-America winner for 1938. Very low and compact and a pleasing shade.
Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$2.00.

W3824—TOPAZ ROSE. The deepest pink Bedding Petunia with a golden throat. Taller than the other "Low-Growing Bedding Petunias." A very showy and pleasing color and free bloomer.
Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 75c.

W3843—GLOW (Silver Medal, 1939). Low growing, large flowered, and the brightest light scarlet of all Petunias.
Lg. Pkt. 40c; 1/8 Oz. \$1.00; 1/4 Oz. \$3.00.

W3846—RADIANCE. The new 1940 All-America winner. Brightest cherry-red with golden throat.
Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.50.

W3805—DWARF BEDDING MIXTURE. A good mixture of many separate colors of the low growing varieties, not all of our own growing.
1/4 Oz. 50c; Oz. \$1.50.

SNAPDRAGONS

Harris'-Grown Colossal Tall Snapdragons

W5030—Mixed Colors. It has taken us several years to develop a strain of giant-flowered Snapdragons we felt sure would be more satisfactory, especially in the North. With us, the flowers are larger, bloom more freely, and were absolutely free of rust. Lg. Pkt. 25c; 1/8 Oz. 50c; 1/4 Oz. 75c; Oz. \$2.50.

Harris-Grown Separate Colors

Flowers larger, spikes longer and more full; plants earlier and more vigorous.

W5031—Colossal White	Lg.			
W5032—Colossal Pink Shades	Pkt.	1/8 Oz.	1/4 Oz.	
W5034—Colossal Yellow	\$.30	\$.60	\$1.00	
W5035—Colossal Crimson				
W5036—Colossal Orange				

Tall Giant Flowered Snapdragons (Rust-Resistant)

These are the finest Tall Snapdragons we can buy. They are American grown, and fresh seed of high germination. The flowers are large and well placed on stems growing 2 to 2 1/2 feet high. For plant trade, the seed is usually started in early February.

W5051—Pure White	Lg.			
W5052—Autumn Glow. Beautiful terra-cotta pink	Pkt.	1/8 Oz.	1/4 Oz.	Oz.
W5053—Bright Rose				
W5054—Wallflower Red. Brown and red combinations	\$.25	\$.50	\$.75	\$2.50
W5055—Crimson. Deep red with dark foliage				
W5056—Orange				
W5057—Canary Yellow				
W5050—Variety Mixture. Our own special mixture, using proper amounts of the seven colors. An exceptional mixture for plant trade.	Lg. Pkt.	15c;	1/8 Oz. 40c;	1/4 Oz. 60c; Oz. \$2.00.

Two Exceptional Half-Tall Snapdragons (Harris Grown)

W5108—St. George. A very free-flowering brilliant orange-cerise of compact growth. Large flowers on heavy spikes. Lg. Pkt. 30c; 1/8 Oz. 50c; 1/4 Oz. 75c.
W5107—Royal Rose. The richest and brightest rose imaginable. Free-flowering on compact plants. Lg. Pkt. 30c; 1/8 Oz. 50c; 1/4 Oz. 70c.

Half-Tall Snapdragons

W5115—New-Color Mixture. Here is something special in a mixture of Half-Tall (18-24 inches) Snapdragons. It is a mixture we make by using the light and unusual colors. Might be called a "Pastel Mixture." Good for plant trade. Lg. Pkt. 15c; 1/4 Oz. 50c; Oz. \$1.50.

SCABIOSA

New Giant-Flowered

	Lg. Pkt.	1/4 Oz.	Oz.
W4647—Loveliness. Salmon-pink	\$.25	\$.75	
W4648—Shasta. Pure white	.25	.65	
W4649—Salmon Beauty. New true salmon	\$.20	.45	1.50
W4654—Blue Cockade. Azure blue	.20	.50	
W4658—Black Prince. Deep maroon	.20	.50	
W4659—Fire King. Scarlet	.20	.50	
W4646—Rosette. Deep rose	.25	.75	
W4655—Blue Moon. Bright blue	.20	.60	2.00
W4650—Mixed Colors 1/4 Lb.	\$1.20	.15	.40
W4660—Olympian. Spectrum Mixture. New giant-flowered	.15	.35	1.00
W4641—Dwarf Peace. White	.20	.60	2.00
W4643—Dwarf Heavenly Blue	.20	.60	2.00

SALVIA

W4600—Harris' Bonfire. With the florist, the name of Harris has become synonymous with superior quality and high germinating Salvia seed. Our own special strain of Bonfire Salvia which we recently introduced has met with increasing popularity. The spikes are larger, longer, and the florets placed more closely together. The growth is as uniform as though it had been sheared. The color is of a brighter shade than any other variety, and the germination higher. Lg. Pkt. 25c; 1/4 Oz. 90c; Oz. \$3.00; 1/4 Lb. \$10.00.

W4605—Dwarf Firebrand. A new very dwarf compact type; very early bright scarlet. Our own growing. Lg. Pkt. 35c; 1/4 Oz. 80c.

W4603—Farinacea. Blue Bedder. Long-stemmed, graceful sprays of light-blue. Our own growing. Lg. Pkt. 30c; 1/8 Oz. 65c; 1/4 Oz. \$1.00.

Salvia Farinacea

STOCKS

Harris' "Sure-To-Bloom" Stocks

A new strain of the "10-Weeks" type. In our tests they have never failed to bloom 100% from seed sown out-doors in May.

W6024—Azure Blue	Lg.		
W6023—Blood Red	Pkt.	1/4 Oz.	Oz.
W6026—Canary Yellow			
W6025—Dark Blue	\$.30	\$.60	\$2.00
W6021—White			
W6022—Flesh Pink			
W6027—Rose			
W6028—Chamois			
W6020—Variety Mixture	.20	.50	1.50

New Giant Imperial Stocks

W6000—VARIETY MIXTURE. A special mixture we make by using equal amounts of the following six separate colors: White, Yellow, Rose, Azure, Dark Blue, Blood Red. These are the finest giant-flowered, double branching, tall growing Stocks obtainable. Lg. Pkt. 25c; 1/8 Oz. 40c; 1/4 Oz. 70c; Oz. \$2.50.
SEPARATE COLORS—We can supply any of the above named six separate colors for 1/8 Oz. 50c; 1/4 Oz. 90c; Oz. \$3.00.

Sweet Peas

ZINNIAS

Each year we try nearly all of the different kinds and colors of Zinnias in order to be sure to offer you only those we find to be the best.

For out-door cut flowers we urge you to use our Giant "Two-Tone" Zinnias, the color range is ideal. Fantasy Zinnias are also increasing in popularity for cutting.

The most extensive use for Zinnias is in growing plants in "flats" for spring sales. Sow seed in early April. The Giant Flowered are the most popular and there is an increasing demand for separate colors. Pompon Zinnias are next in popularity.

A New Giant Zinnia Mixture

W8160—Giant "Two Tone" Zinnias, Light-Color Mixture. A new race of giant flowers in unusually beautiful color combinations of the pastel shades. Be sure to sow some of these new Zinnias for your plant trade. Lg. Pkt. 15c; ¼ Oz. 50c; Oz. \$1.40; ¼ Lb. \$4.00.

Giant Flowered Zinnias

W8149— Illumination. Bright pink.	Lg.	
W8154— Canary Bird. Canary yellow	Pkt. ¼ Oz.	Oz.
W8155— Crimson Monarch. Dark		
W8147— Cherry Queen. Rost scar-		
let. The brightest of all.		
W8146— Violet Queen. Dark purple	\$.15	\$.30 \$1.00
W8156— Golden Dawn. Yellow.		
W8137— Miss Wilmott. Soft pink.		
W8152— Oriole. Orange and gold.		
W8151— Orange King. Bright orange		
W8153— Exquisite. Bright rose.		
W8131— Purity. Best white.		

W8120—MAGNIFICENT VARIETY MIXTURE. A special mixture of all the kinds described above. Lg. Pkt. 15c; ¼ Oz. 25c; Oz. 75c; ¼ Lb. \$2.50; Lb. \$7.50.

W8150—GOLD MEDAL MIXTURE. A good quality lower priced mixture containing all colors and shades, grown as mixture. ¼ Oz. 20c; Oz. 60c; ¼ Lb. \$2.00; Lb. \$6.00.

Mexican Zinnias

W8280—Haageana, Mixed Colors. Very bright and interesting for low borders.

Lg. Pkt. 25c; ¼ Oz. 50c; Oz. \$1.50.

TWO NEW SPECIALS

For Plant Growers

DWARF SWEET WILLIAM. An exceptionally colorful strain of this excellent new type. Sowed outdoors in the summer it makes ideal clumps 6 to 8 inches tall in flower for early spring sales. This is unusually fine.

W6140—Double, Mixed Colors.
Lg. Pkt. 25c; ¼ Oz. 90c; Oz. \$3.00.

DWARF NICOTIANA. Here is a new low-growing (18-24 inches), white flowered Nicotiana your customers will like. Started early indoors, they will flower all summer.

W3675—Suaveolens, Orange Blossom.
Pkt. 25c; ⅛ Oz. \$2.50; ¼ Oz. \$4.50.

Giant "Two-Tone" Zinnia

New Pompon Zinnias

This new race of Zinnia is especially good for cut flowers. The flowers are small, full double and borne in profusion eight weeks from sowing.

W8231— White.	Lg.	
W8232— Salmon.	Pkt. ¼ Oz.	Oz.
W8233— Yellow.	\$.15	\$.25 \$.75
W8234— Scarlet.		
W8236— Orange.		
W8237— Purple.		
W8230— Variety Mixture		
¼ Lb. \$2.00.15	.20 .60

Fantasy Zinnias

A new type with long curled and twisted petals making them very attractive. The flowers are of medium size on long clean stems. Good for cutting and increasing in popularity.

W8289— White Light.	Lg.	
W8287— Orange Lady.	Pkt. ¼ Oz.	Oz.
W8288— Rosalie.	\$.15	\$.50 \$1.50
W8286— Star Dust.		
W8285— Mixed Colors.15	.30 1.00

Cut-&-Come-Again

Medium size flowers, ideal for cutting. Many florists sow ½ lb. and more outdoors in drill rows. These are the two most desirable colors.

	Lg. Pkt. ¼ Oz.	Oz.	¼ Lb.
W8262— Salmon Rose.	\$.15	\$.25	\$.75 \$2.25
W8263— Spun Gold.15	.25	.75 2.25
W8260— Special Mixture of			
the two colors.15	.20	.60 1.80

New Cupid Zinnias

A new type, more dwarf in habit than the Pompon, bearing a profusion of very small double flowers.

	Lg. Pkt. ¼ Oz.	Oz.
W8221— Snowdrop, pure white.		
W8223— Pixie, bright yellow.	\$.15	\$.50 \$1.50
W8224— Tiny Tim, rich scarlet.		
W8220— Variety Mixture.15	.40 1.25

"I have always had grand success with your Cut-&-Come-Again Zinnias."

Mrs. J. A. Harwell, Atlanta, Ga.

Our list of hardy perennial flowers includes only those varieties really hardy in the North and those kinds that are the best for plant trade, as well as for cut-flowers. The seed is largely of our own growing and is all of the highest germination.

ASSORTED PERENNIALS

The following kinds of hardy perennials are indispensable if you are interested in selling hardy plants.

Pyrethrum

	Lg. Pkt.	¼ Oz.	Oz.
W4015—Single, Robinson's New Giant, Mixed Colors. Very much larger flowers and stiffer stems. A very real improvement over the ordinary variety. Our own growing of high germinating seed.	\$.35	\$.90	\$3.00

Scabiosa Caucasic

W4663—Perfecta. The finest light-blue outdoor cut-flower and very popular for plant trade. Blooms all summer. High germinating seed of our own growing. Lg. Pkt. 30c; ¼ Oz. 75c; Oz. \$2.50.

PERENNIAL PLANTS

If you are interested in hardy perennial plants for cutting ask for our prices.

INSECTICIDES, ETC.

All articles on these two pages are sent at purchaser's expense except where noted. Prices quoted are as of Dec. 1, 1941 and are subject to change without notice.

We have normal supplies of the items listed here, but cannot guarantee replacements when this stock is sold.

ARSENATE OF LEAD. Standard poison to use against worms and insects that eat leaves of plants, fruits, etc.

Powder: 1 lb. package 35c; transportation paid. Not paid: 4 lb. bag 80c; 6 bags (24 lbs.) or more at 17c per lb.

"BLACK LEAF 40." Standard nicotine sulphate insecticide. Highly concentrated. Economical.

1 oz. 35c; 5 oz. \$1.00; 1 lb. (bottle) \$2.25; 2 lb. (tin) \$3.25; 5 lbs. \$5.85. Purchaser pays transportation. Prices net. Subject to change. Write for prices on larger sizes.

BORDEAUX MIXTURE. Standard fungicide for spraying plants and trees.

1 lb. 35c; transportation paid. Not paid: 4 lb. bag 75c; 6 bags (24 lbs.) at 16c per lb. Write for prices on larger quantities.

CALOMEL. Used for control of cabbage maggot.

Lb. \$4.50. Transportation paid. Prices subject to change.

CORROSIVE SUBLIMATE. ¼ lb. \$1.10; lb. \$3.50. Transportation paid. Prices subject to change.

EVERGREEN. One of the most effective non-poisonous insecticides. Contains soap spreader.

1 oz. 35c; 6 oz. \$1.00; 16 oz. \$2.15 transportation paid. Not paid: 1 gal. \$12.20.

FORMALDEHYDE. (40 per cent.) A valuable disinfectant for destroying germs that cause diseases in plants. Directions on can.

1 lb. cans 40c; 6 cans \$2.15 postpaid.

"NICO-FUME." Powder Pressure-Fumigator (New).

This most effective and economical fumigating material for greenhouses is now burned under pressure in special cans in which it is packed. Directions on label. Ask us about "Hand-Directed" Fumigation.

½ lb. cans 45c each; 6 for \$2.40; 12 for \$4.20; 1 lb. cans 75c each; 6 for \$3.75; 12 for \$7.00 transportation paid.

PYROTE. Unexcelled non-poison Pyrethrum-Rotenone spray. No spreader needed.

1 oz. 35c; 5 oz. \$1.00; pint \$2.25; transportation paid.

CUPROCID (Red Copper Oxide). A very effective and cheap disinfectant for seed. Especially effective for spinach and beets.

4 oz. 35c; 1 lb. can \$1.00 transportation paid. Not paid: 5 lbs. \$4.00. Write for prices on larger quantities.

YELLOW CUPROCID. New. Copper Oxide spray, replaces Bordeaux. Extra fine powder, goes twice as far as Cuprocid 54 which we formerly sold.

Single bag (3 lbs.) \$1.55 transportation paid. Not paid: Case (16-3 lb. bags) \$21.20.

SULROTE. This new dust combines Sulphur and Rotenone in a most effective non-poisonous dust, for control of lice and worms on cauliflower, cabbage, etc., Mexican beetles, cucumber beetles, etc.

1 lb. can 45c each transportation paid. 5 lb. bags \$1.25; 25 lbs. at 15c per lb.; purchaser pays transportation. Write for prices on larger quantities.

TOBACCO DUST. Fine Powder. Used extensively for dusting plants and for fumigating greenhouses. 5 pounds will fumigate a house 20 x 100 feet.

2 lbs. 35c transportation paid. Not paid: 10 lbs. 50c; 100 lbs. \$4.00.

WEED KILLER. Effective for killing weeds in ditches, roads, etc. Destroys all vegetation.

1 qt. 70c; 1 gal. \$1.75; 5 gal. \$4.75. Purchaser pays transportation. Also 30 gal. and 50 gal. drums may be available. Write for information.

Protect Your Seed Corn From Crows

If you are troubled with crows and other birds pulling up your seed corn, treat it with **STANLEY'S CROW REPELLENT**. We use it on our own farm for corn, melons and cucumbers. Will not harm the seed or clog the planter.

Half pt. can (enough for 1 bu.) . . . \$.60
Pint can (enough for 2 bu.) . . . 1.00
Quart can (enough for 4 bu.) . . . 1.75
Transportation paid.

SEMESAN. We have found this material most reliable to prevent damping off of seedlings. Used either as liquid for treating soil or dust disinfectant for seeds. ½ oz. 10c; 2 oz. 40c; 1 lb. \$2.50; 5 lbs. \$11.40; 25 lbs. \$52.50. Purchaser pays transportation.

SEMESAN Bel. For seed potatoes. One pound New Improved Semesan Bel treats 50 to 60 bu. of cut potatoes. For control of Rhizoctonia and seed-born Scab. 2 oz. 30c; 1 lb. \$1.65; 5 lbs. \$7.15; 25 lbs. \$33.25. Purchaser pays transportation.

SEMESAN Jr. A cheap and effective dry dust disinfectant for both field or sweet corn. Prevents corn from rotting in the ground. 1 ½ oz. 15c; 1 lb. 75c; 5 lbs. \$3.00. Purchaser pays transportation.

CERESAN. New Improved. Effective dust for control of covered smut on wheat, oats and barley. ½ oz. treats 1 bu. of seed.

4 oz. 30c; 1 lb. 80c; 5 lbs. \$3.40. Purchaser pays transportation.

Note: Prices of above Semesan Products are strictly net.

"TWIST-EMS" New Improved Plant Tie. A simpler, quicker, better method. Practical. Send for free samples.

4 in.—1000, \$1.00; 5000 at \$.90 per 1000
6 in.—1000, \$1.20; 5000 at \$1.05 per 1000
8 in.—1000, \$1.25; 5000 at \$1.10 per 1000
16 in.—1000, \$2.15; 5000 at \$2.00 per 1000
transportation paid. Write for prices on larger quantities.

Raffia—Better than String

Used for heavy bundles of plants, for tying plants to stakes, for budding and grafting and many other purposes. Very economical and costs less than string. 1 lb. 50c; 5 lbs. \$2.25 transportation paid. Write for prices on larger quantities.

Rubber Bands

Supply limited. Will quote available sizes by letter. Please write.

Pot Labels and Garden Stakes

Keep a record of the kind and variety of seeds sown, dates, etc.

POT LABELS.	Plain	1000	Painted	1000	1000
4 in. long.	\$.25	\$1.75	\$.28	\$2.15	
5 in. long.25	1.95	.28	2.35	

Transportation paid.

GARDEN STAKES. These are good, smooth, white wooden labels of best quality. 100 Plain \$1.25; 100 Painted \$1.50. Transportation paid. Not paid: 1000 Plain \$7.00; 1000 Painted \$9.50. Weight 30 lbs. per 1000.

Parchment Paper

Used by large growers everywhere for wrapping celery, etc. Plain, not printed.

Two sizes 8 x 11 in. and 9 x 12 in. 1000 sheets per box. 8 x 11"—1 box, \$1.30; 5 boxes or more at \$1.25 each. (Wt. 7 lbs.). 9 x 12"—1 box \$1.60; 5 boxes or more at \$1.55 each. (Wt. 8 lbs.). Purchaser pays transportation. Write for price on larger quantities.

"Take-Hold" Starter Solution

Equal parts Monopotassium Phosphate and Diammonium Phosphate. 100% Soluble. Increases yield of early fruit and total crop. Dissolve 5 lb. to 50 gal. water. Use ¼ pint per plant either in setter or by hand.

10 lbs. \$1.75; 50 lbs. \$7.50; 100 lbs. \$14.65. Purchaser pays transportation.

PEAT MOSS

Finest domestic granulated peat moss. Large Bales, \$3.75 each, 3 or more at \$3.50 each. Purchaser pays transportation.

Early Crops Get Highest Prices

In order to grow profitable vine crops, the grower must do everything possible to insure the greatest yield of early fruit at a minimum cost. The use of plant protectors or field forcers has proved a profitable practice in growing these crops.

We have tried a number of other plant protectors side by side with Hotkaps and Hotents in our melon fields but have found none which are more convenient to use or have equal ability to stand high winds and beating rains. Select the size best suited to your needs.

Germaco
Hotkaps
New Method of
Plant Protection

Prevents ground from baking around the plant. **This makes for earlier and better fruit.**

PRICES: 250 with special setter and tamber \$4.15 (weight 9 lbs.) 250 without setter and tamber \$3.75; 500 with setter and tamber \$6.00 (weight 17 lbs.) 500 without setter and tamber \$5.60; 1000 Hotkaps without setter and tamber \$11.00 (weight 26 lbs.) 5000—\$10.75 per 1000; 10,000 or more at \$10.50 per 1000. Purchaser pays transportation.

For full details and prices of Hotkaps in smaller quantities see our General Catalogue.

Steel Hotkap Setter and Tamber—\$1.60 (weight 3 lbs.). Not prepaid.

Folder giving full description and directions for using Hotkaps will be sent to anyone interested on request. Please write.

Hotents. Larger area and taller, wire reinforced. $10\frac{1}{2} \times 14\frac{1}{2} \times 8\frac{1}{2}$, or $152\frac{1}{2}$ sq. in. at base. Will stand up under adverse conditions. Some of our customers have found Hotents especially valuable for growing melons and use many thousands each year.

PRICE: Carton, 250 (weight 21 lbs.) \$4.00; 500 (weight 34 lbs.) \$7.75; 1000—\$14.35; 5000 at \$14.25 per thousand. Setter \$1.95 each (weight 4 lbs.). Purchaser pays transportation. We cannot sell less than 250. Send for descriptive circular.

Super Hotents. The largest practical field forcer we know. Specially made paper reinforced with wire. Size 14" x 18" by 12" high.

PRICE: Carton, 250 (weight 33 lbs.) \$6.25; 500 (weight 60 lbs.) \$11.75; 1000, \$22.25; 5000 at \$21.95 per 1000. Setter \$2.75 each. Purchaser pays transportation.

Photo shows size and shape of the Hotent.

"Open Hed" Sprayer

This new Brown Sprayer represents the first real improvement that has been made in hand sprayers in many years.

Electrically welded seams, double acting pump lock, opening 5 in. in diameter. Double grip rubber pump handle. New swivel nozzle. Write for literature.

No. 4 B. Open Hed 4 gal.
Brass Tank..... \$12.55

No. 4 D. Open Hed 4 gal.
Galvanized..... 7.55

Transportation paid in U. S. east of the Mississippi River and north of Tenn.

Note: We advise ordering your sprayer early as we may not be able to replace our stock when sold out.

Use "Fertile" Pots for better, earlier crops!

Seedlings set in these pots can be grown and then set in the field, pot and all without checking the plant, even in very dry weather. These pots are made with just the right amount of fertilizer for the best plant growth.

Large growers find these pots not only save time and labor but actually produce earlier fruit and better yields. Especially valuable for Early Cabbage, Eggplant, Peppers, Tomatoes, Melons, Squash, etc.

PRICE: Fertile Pots are packed in cartons as follows:

No. 2 (about 2" dia.) per carton of 500..... \$4.75

No. 2½ (about 2½" dia.) per carton of 500..... 5.25

No. 3 (about 3" dia.) per carton of 335..... 4.00

For prices of small quantities see our General Catalogue.

We cannot sell less than single cartons of each size at these prices. Purchaser pays transportation. Weight per carton about 40 lbs.

PLANET JR. Wheel Hoes and Seeders

These are the best made and most complete line of wheelhoes and seeders, and are used by commercial growers everywhere. Prices quoted are f.o.b. Rochester, N. Y., Cambridge, Mass., or Philadelphia, Pa.
